

Makita BL1820 18V LXT Lithium-Ion Compact 2.0Ah Battery Extended Run Time; Powers 18V LXT and 18V Compact Tools The Makita 18V Compact Lithium-Ion battery charges faster and works longer than standard compact lithium-ion batteries, giving you and your cordless tools unmatched performance and productivity to take on the most demanding applications.

The Makita 18V LXT(R) Lithium-Ion battery charges faster and works longer than standard lithium-ion batteries, giving you and your cordless tools unmatched performance and productivity to take on the most demanding applications. The Makita 4.0Ah battery, model BL1840B, combines more run time (35% more run time per charge than the Makita BL1830

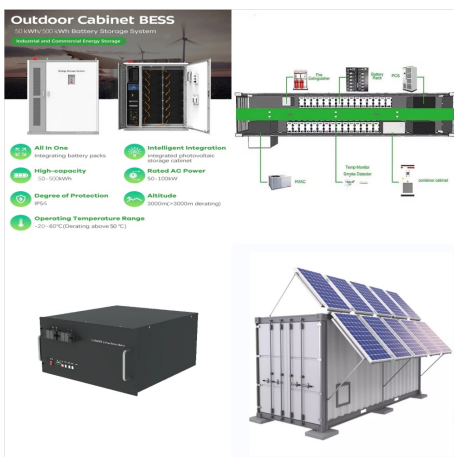

The Makita 18-Volt LXT Lithium-Ion Cordless Vacuum (XLC02ZB, tool only, batteries and charger sold separately) is a compact and powerful solution for fast and efficient cleaning. When using an 18-Volt LXT 5.0 Ah battery (sold separately), users will get up to 33 minutes of continuous use on a single charge. It is compatible with Makita 18

The LXT System is the compatible cordless tool system powered by 18V slide-style batteries. Makita's purpose-built motors, battery technology, and enhanced communications work together to deliver unmatched power, speed, and run time. Get maximum performance and efficiency with LXT Products for every trade.

Makita was the first to introduce 18V lithium-ion cordless tools. Today, the LXT System is the world's largest compatible 18V slide-style battery system with over 325 solutions. Makita's purpose-built motors, battery technology, and ???
