

What is the European photovoltaic solar energy conference & exhibition?

Welcome to the 41st European Photovoltaic Solar Energy Conference and Exhibition. The innovation platform for the global PV solar sector.

What is a photovoltaics Conference?

The event covers developments in different aspects of photovoltaics, including science, technology, systems, finance, policies, and markets. [ 4] The conference topics include the spectrum of photovoltaics value chain, such as policy considerations and foundational aspects.

Why should you attend the JRC Solar Conference?

The Conference remains the premier global event for showcasing the latest advancements and driving innovation in solar energy research, technologies and applications, at a time when the energy industry is rapidly growing and the widespread adoption of solar PV reaching the multi-TW mark. The JRC is also present at the exhibition.

It is the world renowned science-to-science,  
business-to-business and science-to-industry  
platform with a full and only focus on the global PV  
Solar sector. The 38th European Photovoltaic Solar  
Energy Conference and Exhibition will once again  
be held online for the second time in a row from 6 -  
10 September 2021.

A novel procedure to extract and analyze the power  
losses, mainly due to mismatch effects, in a  
photovoltaic (PV) system is presented. The  
developed model allows the extraction of the main  
PV module and PV array parameters from I-V  
characteristics, as well as in dynamic behavior  
under real conditions of work. The method allows a  
good estimation of the mismatch ???
