W foldable solar panel is compatible with most solar generator/portable power station on the market. The portable solar panel kit Includes different sizes of connectors for portable generator. Note: This solar panel is 36.6V and is suitable for most power stations on the market that contain MPPT wide voltages.

200 WATT SOLAR PANELS FOR SALE

Compared to rigid silicon-based solar panels, flexible solar panels have lower efficiency, but their many advantages make up for that. They are made using printing machines that apply a roll-to-roll method, allowing for the mass production of all shapes, sizes, and wattages.

Go Power!'s most popular rigid solar panels are increasing from 190 to 200 watts! Featuring improved efficiency, these panels are now rated at 200-watts (9.6 amps). These more efficient solar panels are the same size as the previous version yet provide more power. Now available in many kits and systems, including:
