I recently purchased a 2003 Chevy Silverado 2500HD with an LB7. Ever since I bought it, the steering wheel has made a groaning sound when I turn my wheel a significant amount such as in parking lots or roundabouts. I can also feel the vibration in the steering wheel as it happens. Apparently the dealership replaced a gear in the power steering

-2010 Chevy Silverado/GMC Sierra 2500HD/3500HD LB7/LLY/LBZ/LMM Duramax Diesel.
