Square D - SC3042M200PF Homeline 200-Amp 30-Space 42-Circuit Solar-Ready Combination Meter Socket and Main Breaker Load Center for Plug-On Neutral Breakers. While the new standard does not mandate solar panel installation at the time of construction, it does define new solar provisioning requirements designed to make future solar electric

Introducing our latest innovation: a dynamic 24-space, 42-circuit, side-by-side meter-load center combination device, designed to meet the evolving needs of residential alternative energy applications. A Solar Solution for Every Home: Seamlessly manage residential solar with our advanced 200 Amp main breaker and enhanced 225 Amp rated bus.

The Square D Energy Center is an electrical panel that makes it easy to add distributed energy resources like solar, battery, and/or generators to new construction homes. The Energy Center features a backup ready, split-bus ???

The Square D Energy Center is an electrical panel that makes it easy to add distributed energy resources like solar, battery, and/or generators to new construction homes. The Energy Center features a backup ready, split-bus interior, eliminating the need for a separate backup panel to be added in the future. Its innovative design supports both partial or full home backup. With ???

Siemens line of feature rich "Solar Ready" meter-load center combination devices will feature the industry's first dedicated 100 Amp max alternate energy input. These devices feature a dedicated alternative energy input so power feeds ahead of the service disconnect on the load side of the meter socket. Total joke, a 200 amp panel can only
