I am looking for a single 240v split phase solar
inverter in the 6000w range that is expandable like
the eg4 6000xp. The question is "will it start a 2 wire
240v 1hp motor". Or a different unit that will work.
Needs to have a very low idle current draw. I have a
2 wire - 240vac - 1hp deep well submersible pump.

Benefits Of 12v To 240v Inverters. 1. Energy
Efficient. A 12v to 240v inverter is a great way to
save energy. These devices convert DC power to
AC power, which enables the user to use less
energy when powering electronic devices. 2.
Remote Control. Some inverters come with remote
control, which makes it easy to turn the device on
and off. 3
