

What is a 24V 750ma transformer for indoor sprinkler controllers?

Try again! Try again! The 24V 750mA transformer for indoor sprinkler controllers is a direct replacement for Orbit 24 VAC indoor controllers. The input is 110 VAC and the output is 24 VAC which is standard for pump relays and solenoids in North America.

Where should I install an indoor controller & transformer?

If you need to install an indoor controller and transformer in an outdoor location, then we recommend installing it in the outdoor sprinkler controller cabinet. This transformer is compatible with 750mA max indoor controllers from Orbit, Hydro-Rain, and other major brands.

What is the replacement transformer for Rain Bird SST indoor irrigation controllers?

Receive an email when this item is back in stock. Return this item within 90 days of purchase. The Replacement Transformer for Rain Bird SST Indoor Irrigation Controllers is a 24-Volt transformer. It comes with a wire connector that slides directly into any SST irrigation controller with no tools required. Suitable for indoor use only.

Which Rain Bird controllers are compatible with the UT1 replacement transformer?

The Rain Bird UT1 Replacement Transformer is only compatible with Rain Bird SST-400i, SST-600i and SST-900i controllers. Should you have any additional questions, please feel free to contact our technical support at 1-800-RAIN BIRD (800-724-6247) and we'd be more than happy to assist.
