What is a 3 phase solar inverter? 3 phase solar
inverters are reliable, efficient, and affordable. Like
any inverter, they convert DC power generated by
solar panels into AC electricity just like any inverter.
However, a three phase solar inverter does
something extra, which is, it splits the AC into 3
chunks for a three phase supply.

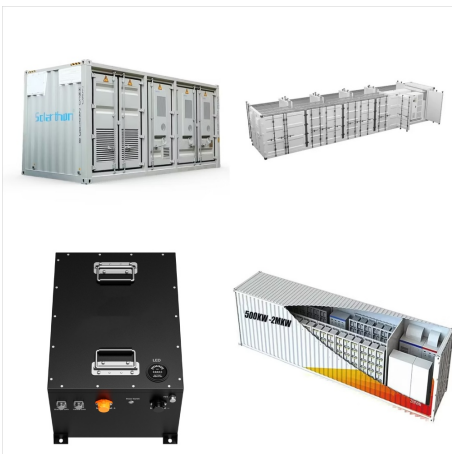

The SolaX Power X1-FIT 3.7kw Gen4 AC Charger
is the latest in the Single Phase X1 Retrofit AC
Charger range. Generate energy from your solar
panels during the day, once the background load is
satisfied, the intelligent SolaX Power X1-FIT 3.7kw
Charger will direct excess energy into your battery
for later use, enabling you to make the most use of
your generated energy.
