3KW SOLAR SYSTEM KIT

DOMINICAN REPUBLIC

Hi all, I'm working on a small ~1kW solar system for a camp in the Dominican Republic. I'm mostly familiar with standard 3kW+ residential systems in the US, so I'm hoping someone can give me some input on component selection for this smaller grid tied setup.

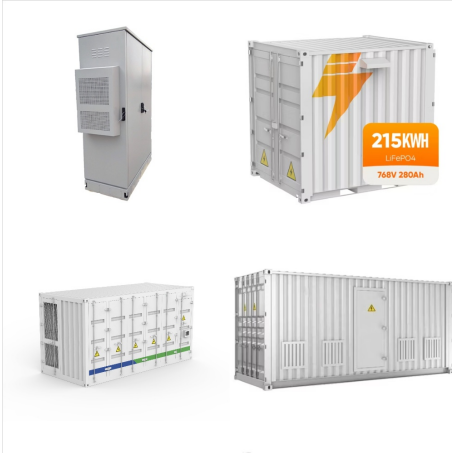

If you want to go completely off the grid, the cost of using a stand-alone wind turbine system will be much higher than a hybrid wind-solar system. A more economical approach is a 3:1 ratio. For example, a 3kw wind-solar hybrid system uses a 1kw wind turbine, a 2kw solar panel, and other accessories. In this way, the cost ratio will be reduced.

The difference between a 3kW and 5kW solar panel system is around five panels, if your system is composed of 430-watt panels ??? which will likely cost you an additional \$1,500. On average, a 3kW system will produce 2,550kWh per year, while a 5kW array will generate 4,250kWh.

3KW SOLAR SYSTEM KIT DOMINICAN REPUBLIC

Solar System Manufacturer 3KW Stand Alone Solar Kits South Africa . 3KW Stand Alone Solar Kits South Africa. Solar panel rated power: 3.3KW Suitable for daily power consumption: >19.8KWH.
