Since solar batteries are expensive, you should also compare battery warranties. A lithium-ion-based solar battery's lifespan is typically anywhere from 10 to 15 years. Most manufacturers offer a 10-year warranty with their batteries, but there are some outliers. Choosing a battery isn't easy, and it's not a decision that should be made on impulse.

We've been testing solar panels with integrated batteries for years, and most of the power bank/solar panel combos we've tried haven't performed well as solar panels. However, the Hiluckey HIS025 25000mAh Power Bank uses a newer design that makes it perform better as a solar panel. This power bank features a four-panel fold-out solar array.
