

What's new at 8minute solar energy?

LOS ANGELES-- (BUSINESS WIRE)--The largest independent solar and storage developer in the U.S. announced today the launch of a new corporate brand identity and name: 8minute Solar Energy ("8minute"). Along with the new name, the company announced a new logo and simplified domain name ().

Who is 8minute solar energy?

As we move into our second decade as a company, I look forward to 8minute being at the vanguard of the energy industry for decades to come." 8minute Solar Energy ("8minute") is the largest privately-held developer of solar PV and storage projects in the United States.

How many solar projects does 8minute have?

Since its founding in 2009, 8minute has successfully put 2 GW of solar projects in operation and currently has over 18 GW of solar and 24 GWh of energy storage projects under development.

How many solar power plants does 8minute have?

8minute has one of the largest pipelines of solar power plants with integrated energy storage in the United States, including more than 50 utility-scale projects in various stages of development, with a typical project size of 400 MW.

Is 8minute a good company?

"8minute is a clear leader in the industry and possesses the best-in-class team, technical prowess, and integrated design approach needed to make a clean energy future a reality," said R. Blair Thomas, EIG's Chairman and CEO.

Why is 8minute Solar Energy called 8minute?

8minute Solar Energy is called 8minute because it takes eight minutes for the sun's light to reach the earth. Today the company is expanding its vision to include what it calls an 'advanced ecosystem' of clean energy products and services.
