93 HONDA CIVIC DEL SOL NO POWER TO FUEL PUMP

Civic and del Sol - EG / EK . ECU not getting power
- Checked for voltage at fuel pump (no voltage) -
Jumped the fuel pump connector at the main relay
(fuel pump kicks on but ECU still not getting power)
- Checked for battery voltage at A25 ECU pin (no
voltage) So basically, I know it's not my engine
harness, main relay, ECU, or fuel pump

FUEL PUMP WIRING DIAGRAM: The following fuel
pump circuit wiring diagram may come in handy:
Fuel Pump Circuit Wiring Diagram (1992-1995 1.5L
Honda Civic). Symptoms Of A Bad Fuel Pump. Fuel
pump failures usually fall in one of two categories.
The most common is a complete failure of the fuel
pump that prevents your 1.5L Honda Civic from
starting.

93 HONDA CIVIC DEL SOL NO POWER TO FUEL PUMP

Try turning the key to the on position and see if you can hear the fuel pump pressurize (should be a whirring noise), and if you hear it, start the car up (It should crank and stay running). Vehicles: 1995 Honda Civic Del Sol; Author; Share; 93 Civic Del Sol SI; Share; Posted July 9, 2009.

This subreddit is devoted purely to the Honda Del Sol. Post pictures, ask questions, and start discussions! Also sometimes running the defrost with the engine off helps the fuel pump kick on. On my del sol the check engine light lights up simultaneously with the fuel pump priming and in my accord the green D4 light would always come one

Water will corrode your fuel system, particularly the gas tank and fuel pump. It is never a good idea to let a car sit for any period in any climate with a partially filled tank because this will increase the absorbtion of water.

93 HONDA CIVIC DEL SOL NO POWER TO FUEL PUMP

Civic and del Sol - EG / EK . 93 civic no fuel and no spark new wire set and new oxygen sensor and all where oem honda parts) . i havnt changed the oxygen sensor yet but will tomorrow. does anyone have any helpful ideas that might help me. cause i just bought the car like maybe 2 months ago and really dont want to swap to my other d15b7

Very very likely to be a bad ignition switch as already suggested, the tracks inside the switch wear out over time and kill power to the engine ecu. They can be stripped and solder ran into the worn groove as a quick fix. Remember ECU controls fuel pump power so ???

1.6L Honda Civic Del Sol VTEC: 1996, 1997.

NOTE: The fuel pump circuit wiring diagram above includes the following circuits: Fuel Pump. How To Test The Fuel Pump In 2 Tests (1.6L Honda Civic). You can find the PGM-FI Main Relay test tutorial here: How To Test The PGM-FI Main Relay (1996-1998 1.6L Honda Civic). RELATED WIRING DIAGRAMS:

I have a Walbro 255 fuel pump in my 93 del Sol. As well as a Rywire engine harness. When I turn the key over the pump is not priming. I also put a test light on A7 at the ECU with the key on there is no power. This is all I could think to try, I know the fuel pump is good, and the main relay is good. 1993 Honda Civic del Sol S [Project

Changed the distributor, coil, main relayall fuses are fine, power to main relay. I cannot find out why it is not getting fuel and a spark at the same time, I think it may be the alarm because I am pretty sure that it cuts off the fuel which may play a big part in the fuel pump problem and then may also cut out the ignition.

93 HONDA CIVIC DEL SOL NO POWER TO FUEL PUMP

[1994 Honda Del Sol] No start -> no power to fuel pump . Hey guys, Do you know if the ECU is in good working order? I know when I bought my "93 Del Sol the previous owner had replaced the ECU with a new one. Also, getting 0 volts might mean there is a short somewhere in the wiring (all current directed to somewhere else, no potential in the

No power to fuel pump. Replaced fuel pump, main relay replaced, checked every single fuse 24 and 31 have power and are good, jumped the contacts on main 1 to 7 and 5 to 7 and the fuel pump turns on but no start, have plenty ???
