What should you look for in a battery charger? All the battery chargers on test are designed to charge standard NiMH and older NiCad batteries in the most common AA, AAA and 9v formats. Rechargeable lithium-ion batteries in these sizes are still a fairly new phenomenon, and usually need a specific charger or USB charging cable.

A:Can charge AA and AAA batteries. Comes with 4 AA batteries. A:With a car adapter they both work!
A:No it won't you need a pair of two batteries in order to charge. Customers consistently note the fast charging speed and long-lasting nature of the product.
