Is acclaim a good business partner?

Acclaim is a solid business partner! Acclaim did a great job in helping our team meet our sustainability goals, by buying renewable energy in a simple and effective way. They identified various local and flexible options that we could apply short term, while also reducing our costs.

Is natural gas a problem in Macao?

As a member of the Smart Energy Group of UM's State Key Laboratory, which focuses on optimising clean energy use and production, Zhang believes expanding the use of natural gas poses major problems, especially in the city's older districts. "Many buildings and [much of the] infrastructure in Macao are outdated.

What type of energy is used in Macao?

Renewable energy here is the sum of hydropower, wind, solar, geothermal, modern biomass and wave and tidal energy. Traditional biomass - the burning of charcoal, crop waste, and other organic matter - is not included. This can be an important energy source in lower-income settings. Macao: How much of the country's energy comes from nuclear power?

Can Macao increase solar energy?

The Macao government also sees an opportunity to increase solar energy. To encourage the installation of PV systems, officials passed a set of safety and installation regulations in 2015.
