

Is ACE Solar a good company?

Ace Solar has been great to work with from the beginning. Their sales proposal was honest, straightforward and reasonably priced in fact they were \$8,000 less than another company I evaluated for the same panels. All the documents were electronic which was great for me as I have limited time for appointments.

Where can ACE solar help?

ACE Solar is honored to offer our solar expertise to the city of Worcester, one of the largest cities in Massachusetts! From a number of colleges and universities to local businesses, office parks, and residential neighborhoods, Worcester is full of properties that can reap the benefits of ACE Solar's residential and commercial solar services.

Why did you choose ACE solar?

We chose ACE Solar based on recommendations. They have done a great job installing solar panels on our house. They did a careful professional job: thoughtfully assessed our roof capabilities, completed the job promptly, left no mess, and the result looks attractive and works well producing electricity.

What is the ACE, LLC SOLAR EnerGoStation?

The ACE, LLC SOLAR EnerGoStation systems are solutions for solar energy to operate day and night and an ability to replace coal, oil, natural gas, diesel, and nuclear as an alternative energy source. They are considered differentiated technology and perfectly suited for small power users.

What makes Ace successful?

ACE has developed and/or built over 300 MW of solar PV projects across the US. We succeed by listening to our partners and clients, offering flexible, innovative solutions tailored to their needs, and driving the project to successful completion with well-honed risk management and operational discipline.

Is ace still waiting for a resolution?

And currently since then, still waiting for Ace since Aug 2022 for a resolution. Reply from ACE Residential Solar: Ward, as we have been discussing over the past months, we are equally frustrated with way things have gone with the battery equipment and more specifically, the manufacturer and their response to this issue.
