

Could Mexico attract US\$17 billion of direct investment?

Mexico could attract US\$17 billion of direct investment under the highest accumulated renewable scenario. The impacts of greater renewable energy penetrations vary geographically and depend on the assumptions made when defining the new installed generation capacity for each scenario.

How much money did Pemex invest in a new refinery?

U.S. natural gas exports to Mexico via pipeline have increased more than 400% since 2011. In 2022, Pemex purchased ownership in the Deer Park refinery in Houston for \$596 million. In addition, a new refinery called Olmeca Dos Bocas, which will come online in 2023, was constructed at an estimated cost of \$12 billion.

Did Pemex make a profit in 2022?

Pemex (Mexico's state-owned oil company) reported a profit of 23 billion pesos (\$1.2 billion) in 2022 aided by higher oil prices.¹ This is the first time the company posted a profit in a decade on an annual basis. Pemex used a \$2 billion bond to refinance some of its nearly \$105 billion debt in the third quarter 2022.²

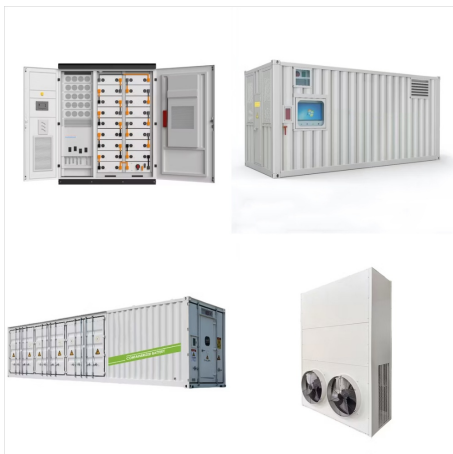

In ADREM, leading industries and university groups in process intensification, catalytic reactor engineering and process control team up to address the domain of resource- and energy-efficient valorisation of variable methane feedstocks to C2+ hydrocarbons.

Short-Term Energy Outlook, we forecast that Mexico's petroleum and other liquids production will average 1.93 million b/d in 2023 and 1.91 million b/d in 2024. ??? U.S. natural gas exports to Mexico via pipeline have increased more than 400% since 2011. ??? In 2022, Pemex purchased ownership in the Deer Park refinery in Houston for \$596 million.

The Adrem Group supports the transition to renewable energy through its offer of solutions and services dedicated to the energy field, through the three companies ??? Adrem Invest, Adrem Engineering and Adrem Link ??? each specialized in its market segment.

Adrem Engineering supports the digitalization of the Romanian energy infrastructure, being a leader on the local market of industrial automation and realizes from complex works of general entrepreneurship to equipment developed within Adrem (over 3,000 own RTU equipment integrated in important projects).

The evaluation of technical and commercial energy equipment is a service which ADREM provides with maximum responsibility and professionalism. We understand our clients' needs to enjoy the best solutions, from the best manufacturers on the market, and, also, the need to obtain the best prices and the optimal quality of the solutions acquired.

Grupul Adrem sprijină tranziția energiei regenerabile prin oferta sa de soluții și servicii dedicate domeniului energetic, prin intermediul celor trei companii: Adrem Invest SRL, Adrem Engineering SRL și Adrem Link SRL (denumite în rapoarte AI, AE, AL și Grupul Adrem), fiecare specializat pe segmentul ei de piață.

BUILDING PROGRESS. Adrem Engineering supports the digitalization of the Romanian energy infrastructure, being a leader on the local market of industrial automation and realizes from complex works of general entrepreneurship to equipment developed within Adrem (over 3,000 own RTU equipment integrated in important projects).

Adrem Group supports the transition towards renewable energy by providing dedicated solutions and services in the energy sector, by means of its three companies: Adrem Invest SRL, Adrem Engineering SRL and Adrem Link SRL (hereby referred to as AI, AE, AL and Adrem Group), each of them specialized in its market segment.
