

Will ADT offer a solar system?

Homeowners who are currently ADT customers could soon be offered solar products that integrate with either current or upgraded smart home systems to provide energy management and bill savings. Future ADT customers will likely be offered package deals on security, smart home, and solar services.

How many solar installations does ADT have?

The company's website now claims more than 30,000 completed solar installations, which equals around 1% of all residential solar installations ever completed. ADT is a publicly-traded nationwide home security company with more than 6 million customers.

What services does ADT solar offer?

ADT Solar relies on the solar equipment manufacturer Enphase to offer 24/7 solar monitoring services. This app lets you analyze system performance against weather data. You can also verify your solar system's health and share metrics on social media platforms.

How does ADT solar work?

A solar specialist will work with you to customize a solar energy system that meets your goals and maximizes efficiency on your property. ADT Solar takes care of the permits, inspections and electrical work. Once the company installs the panels and the city utility installs the net meter, the system starts producing power right away.

Does ADT solar manufacture its own solar equipment?

ADT doesn't manufacture its own solar equipment- it serves as a solar installer, offering in-house installations with equipment from other companies. ADT Solar operates in 24 states and has plans to expand further.

Why is ADT solar a smart choice?

Here are just a few reasons why ADT Solar is a smart choice. Choosing to add solar energy to your home and selecting a provider can be daunting. The industry has grown extremely quickly, and with that fast growth has come thousands of competing companies, inconsistent local and state policies and consumer confusion.

Overview. As of February 19 th, 2024, ADT Solar no longer accepted new customers or inquiries. However, we want to assure you that our commitment to supporting existing customers remains unwavering.
