

Aegis Power Systems, Inc. is a leading design and manufacture center for a variety of standard and custom power supplies. We supply advanced solutions for several markets and numerous applications. Our AC-DC power supplies and DC-DC converters are available in many options and configurations to suit a wide range of capability needs.

Aegis Power Systems, Inc. specializes in the design, development, and manufacture of power supplies for defense, industrial, telecom, aircraft, shipboard, rack mount, and electric vehicle applications. Many of our standard options are configurable to your voltage and current requirements. We also offer custom design capability to create a

Aegis Power Systems, Inc. specializes in the front end design, development, and manufacture of Rapid Response Custom Switching Power Supplies for Mil-COTS, defense, industrial, telecom, aircraft, shipboard, rack mount, and electric powered vehicle applications. Contact Aegis Power Systems for details on Mil-Specs that this product is designed

Aegis Power Systems, Inc. is a leading provider of high-quality power supply solutions and services, catering to diverse industries and applications. With a commitment to delivering reliable, efficient, and innovative power solutions, Aegis Power Systems has established itself as a trusted partner for businesses worldwide.

Aegis Power Systems is a designer and manufacturer of rack-mount power supplies and high power kw converters for ac-dc or dc-dc applications. Customized to your specifications. rack mount power supplies are rugged and made for use in industrial, COTS, field and test equipment, and communication markets. 19" or other slide-in card sizes

Murphy, NC - March 3, 2022 - Aegis Power Systems, a leading supplier of AC-DC and DC-DC power supplies for custom and special applications, is pleased to announce the release of two new AC-DC power supplies for ground vehicles and other defense applications. Both the AP14G02K0282 and the AP14G01K2282 offer single phase 85-264 Vac input and 28 Vdc output.

Aegis Power Systems is a leading supplier of highly reliable AC/DC and DC/DC power supplies for custom and special applications. Our line of switch mode power supplies and power converters are designed for the defense, industrial, aircraft, electric vehicle, and telecom markets.

Aegis Power Systems, Inc. specializes in the design, development, and manufacture of power supplies for defense, industrial, telecom, aircraft, shipboard, rack mount, and electric vehicle applications. Many of our standard options are configurable to your voltage and current requirements. We also offer custom design capability to create a

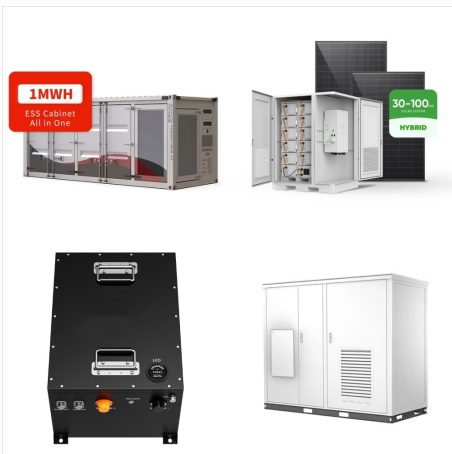

Aegis Power Systems primarily serves sectors that require robust and reliable power solutions, such as the military, aerospace, and embedded computing industries. It was founded in 1995 and is based in Murphy, North Carolina. Headquarters Location. 805 Greenlawn Cemetery Road .

Rugged Power Supplies and Power Converters for Unmanned Systems & UAVs. Aegis Power Systems is an experienced USA-based manufacturer of power electronics for aircraft, military, embedded computing, and other heavy-duty a?|

Who is Aegis Power Systems. Aegis Power Systems is an award-winning custom power supply design and manufacture center based in Murphy, NC. First founded in 1995, the company h as developed a robust line of efficient and highly reliable AC-DC power supplies and DC-DC converters for specialized markets. Aegis Power Systems is ISO 9001:2008 certified, a?|

Aegis Power Systems manufactures power supplies for military, aviation, and telecom applications. Aegis specialises in integrated AC-DC power conversion and has been developing rugged power supply units (PSUs) for defence operations since 1995.

Aegis Power Systems manufactures custom and standard power supply converters for military, mil-cots, aircraft, electric vehicle, telecom, industry, defense, rack mount, sonar, radar, aerospace, shipboard, and vme applications. All power supply products a?|

Aegis Power Systems is an experienced USA-based manufacturer of power electronics for aircraft, military, embedded computing, and other heavy-duty applications. We provide high-quality integrated power conversion solutions to keep customer's projects moving forward efficiently and effectively, including VME, Single Phase and Three Phase power

Aegis Power Systems, Inc. is founded. Aegis Power Systems, Inc. 805 Greenlawn Cemetery Rd. Murphy, NC 28906. Phone: (828) 837-4029 Fax: (828) 837-4106. Get In Touch.
