

What does AeSI stand for?

About American Energy Storage Innovations, Inc. (AESI) AESI is a pioneering provider of advanced grid-scale battery energy storage systems designed for high reliability, superior performance and the lowest total cost of ownership.

Who makes specialized batteries in Myanmar?

(PTIC) is one of the leading firms in Myanmar that manufacture a number of high-tech industrial products. These include lead acid automobile batteries, industrial stand-by batteries and other various types of specialized batteries. Among them, many of the specialized types include locomotive batteries and forklift batteries.

Why do we support AeSI?

"We're proud to support AESI as they scale production and continue delivering unmatched value to their customers," said Steven Chen, Vice President of EVE Energy Co. Ltd. "Together, we're pushing the boundaries of innovation in the energy storage market."

Why did AeSI move to Malaysia?

The decision to build manufacturing capabilities in Malaysia considers additional tariffs on material sourced from China and the lack of a committed supply chain for a 100% US-manufactured BESS. By shifting production to this new facility, AESI ensures customers will continue to receive top-quality products at the most competitive prices.

The new independent company charts enormous success with industry leader Bud Collins at the helm. [BOSTON, MA and DETROIT, MI ??? 11 September 2023] ??? Today, just ahead of the RE+ exhibition, American Battery Solutions, Inc. (ABS) is pleased to announce the spin-out of its Energy Storage Solutions Division (ABS-ESS) to create a new company: ???
