AesonPower has announced a strategic partnership with Imbox. This collaboration aims to integrate AesonPower's advanced energy storage systems, including sodium battery technology, into Imbox's modular tiny homes, providing off-grid and sustainable energy solutions. This partnership highlights both companies' commitment to sustainable living and renewable ???

At Aeson Power we recognise and acknowledge the existing, original and ancient connection Aboriginal and Torres Strait Islander peoples have to the lands and waterways across the Australian continent. We pay our respects to the elders past and present. We commit to working together to build a prosperous and inclusive Australia.

Aeson Power APS series is a non-managed 51.2V LiFePO4 (Lithium-Iron Phosphate) battery module. With advanced LiFePO4 cell technology and smart BMS, the product has the benefits of long cycle life, small size, lightweight, high safety, and environmental protection. The battery has a Wi-Fi function, which supports remote fault diagnosis and the

Aeson Power now offers 128V battery systems installed in enclosures rated IP22, ranging from 12.8kWh to 250.88 kWh, which are super easy to expand as your load grows ??? just add another cluster, by connecting it in parallel to the existing one. The system is 100% hassle-free due to its modular plug-n-play construction.

In the dynamic landscape of renewable energy and power solutions, Australian-based Aeson Power stands out as a beacon of innovation and reliability. As a proud partner company of XuPai Group, Aeson Power has etched its mark on the industry with over 28 years of unparalleled expertise in power batteries, energy storage, and UPS batteries.

MELBOURNE, AUSTRALIA???Aeson Power, a trusted Australian provider of innovative battery and energy storage solutions, successfully showcased its cutting-edge technologies at the All-Energy Australia exhibition at the Melbourne Convention and Exhibition Centre on October 23rd-24th. The significant interest in Aeson Power's showcase at All-Energy Australia was evident in ???

The HR (High Rate) series is specially designed for high-rate discharge applications. By using strong grids and specially designed active material, the HR series offers stable performance during high current discharge. It offers extremely high-power output at 15 minutes of backup time with 5-12 years of design life. Documents. HR12-75W 2021.pdf
