

Who is the best solar company in South Carolina?

According to solar shoppers on the EnergySage Marketplace, the top five solar installers in South Carolina are Olympus Home, Renu Energy Solutions, Solar Energy Partners, CAPE FEAR SOLAR SYSTEMS, LLC, and ESD Solar. How many solar companies are in South Carolina?

How much does solar cost in South Carolina?

The average price per watt of solar power in South Carolina is \$2.44/W. These prices are before incentives. After the federal solar tax credit, the final cost will drop by 30%, down to \$21,873 for a 12.82 kW system. Many states even offer local rebates and incentives that lower the price further--sometimes by thousands of dollars.

Does South Carolina have solar energy?

Since only about three percent of homes are powered by solar in the state, this puts the priority for the changeover relatively low compared to how many clear days residents enjoy each year. That being said, South Carolina's solar energy still falls in the top half of the country's states when it comes to price.

What tax credits are available for solar installation in South Carolina?

A 25% tax credit on solar installation in South Carolina with a maximum credit of either \$3,500 or 50% of your state tax liability over 10 years. Net metering programs that allow residents to sell excess power back to the local power company. Local utility company incentives to offset the costs of installation.

How much do solar panels cost per state?

Calculating the cost of solar panels per state comes down to a range of factors. State incentives, brand options and, of course, the amount of sunshine, will also factor into your ROI. South Carolina solar panels cost an average of \$12,210 after the 30% federal tax incentive.

Do solar companies rely on subcontractors?

Some solar companies rely on subcontractors to perform some or all the work during your solar installation. Don't let this put you off: It's entirely standard procedure in the industry. What is alarming, though, is a lack of transparency from installers about who will install your system and why they use subcontractors.
