

Antigravity AG-1601 Small Case Lithium 12v Powersports Battery. The Antigravity AG-1601 is an ultra compact 16-Cell battery: only 4.5 x 3.25 x 5.25 inches (LxWxH to top of terminals) and 3.18 lbs yet has massive power. It can turn over many of a?

The Antigravity Batteries AG-801 8-Cell Motorsports battery is one of the most popular models. It is an extremely powerful battery in a small package. 240 Cranking Amps. 9 Amp Hours (PB Eq). At a very small 4.25 x 2.25 x 3.75 inches (LxWxH to the top of the terminals) this battery offers extreme power in the most compact size in Lithium

The Antigravity Batteries AG801 8-Cell Motorsports batteries is one of the most popular models. It is an extremely powerful battery in a small package. At a very small 4.25a?3 Length x 2.25a?3 Depth and 3.75a?3 hieght (to the top of the terminals) this battery offers extreme power in the most compact size in Lithium Motorsport batteries.

AG-801 ANTIGRAVITY LITHIUM BATTERY

Antigravity AG-801 Small Case Lithium 12v Powersports Battery. At a very small 4.375 x 2.37 x 3.75 inches (LxWxH to top of terminals) this lightweight motorcycle battery offers extreme power in the most compact size in Lithium Motorsport a?|

The Antigravity YSZ7-8 Lithium Motorsports Battery is a Hi-Power Lithium Replacement for the OEM Lead/Acid YSZ7S found in so many bikes including most all Enduros. full BMS protections, and a 4-terminal design. Or see our AG-801 Small Case Battery for Race use. Feel free to call us with any questions: 310-527-2330. Recommended Replacement

Antigravity batteries work with all 12V systems, delivering over 2 times the power of and weighing 80% less than lead/acid batteries. There is a 3 year warranty included. The AG-801 Antigravity battery is non-toxic and contains no lead or acid. No trickle charging is needed. Get better starting performance at half the size of a lead/acid battery.

For example our AG-801 offers TWICE the POWER of the Lithium Battery that comes in your KTM/HONDA/YAMAHA Enduro or MX bike, yet is more COMPACT. Additionally we offer the AG-401 that is HALF the size of the stock Lithium Battery in a KTM/Honda/Yamaha/Kawasaki yet has just as much power in a more compact format.
