

Discover Aggreko's industrial switchgear rentals, including low-, medium- & high-voltage fused switches, designed for a variety of temporary use cases. Inquire now. Electrical switchgear is key for any power system, offering protection, isolation, and control. With the right switchgear in place, you can take control of your operations

Reliable, Scalable, and Efficient Power. The Aggreko PowerFlex 1500 kW natural gas generator provides gas flexibility, and superior transient capability. EPA certified for mobile and stationary applications, with the ability to operate on all gases ranging from Bio-Gas to LPG, and Pipeline quality. Advanced genset controls system EPA non

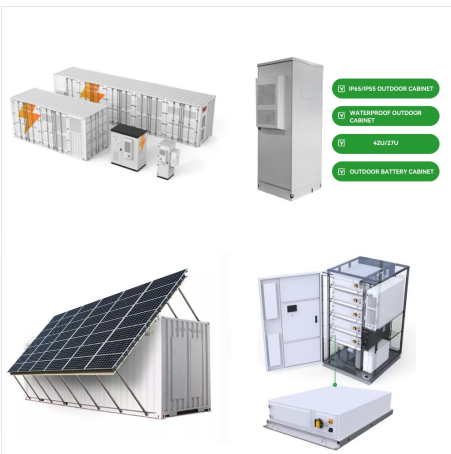

A large-node battery energy storage system (BESS) for the most energy-intensive applications. Our 1 MW/1.2 MWh battery storage solution is ready for the most demanding settings and the most unpredictable loads with dependable energy and zero emissions.. As you strive to drive down emissions and fuel costs, our 1-megawatt battery gives you a way to store and use ???

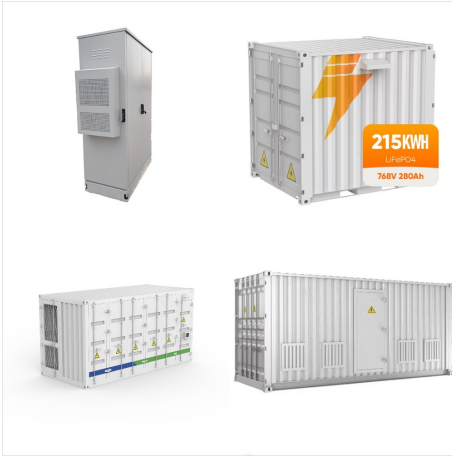

Confidently respond to emergencies, restore working environments, and resume business as usual with Aggreko's expert support. Get urgent emergency power generators, temperature control, and dehumidification when primary systems fail.

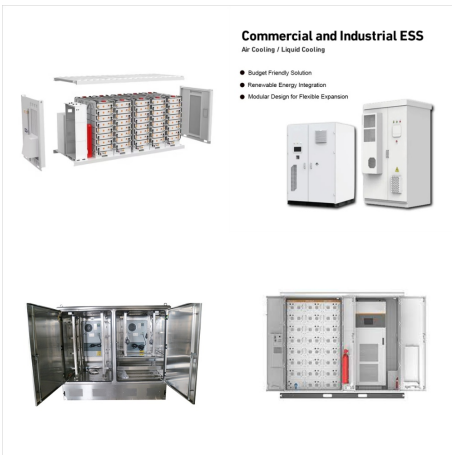

With temporary generators from 30 kVA to 2,100 kVA, we deliver the data center power supply your operations need, even where grid capacity is limited or a grid connection has been delayed; Hybrid power plant ??? With Aggreko's on-site gas-powered system, you get reliable, clean, and low-cost energy on demand. Designed to be a source of

The equipment is available in standalone containers and Aggreko's expert team can quickly deploy the power distribution system designed for the project. The readily available, turnkey nature of Aggreko's electrical distribution options can help companies avoid the long lead times and supply chain constraints on this type of equipment, which

Discover how Aggreko supports professional contractors with scalable rental solutions, including energy, cooling, and heating systems. Our turnkey solutions ensure seamless project execution with 24/7 availability and greener energy options.

Maintain and repair existing systems with backup and short-term power. Create temporary power for construction sites with complete distribution packages. Meet your Energy Transition goals with diesel and commercial natural gas generators. At Aggreko, temporary power is what we do. We've handled the biggest, most sprawling implementations

Aggreko has a wide range of switchgear power systems available for dependable, high-performance power distribution. Enquire today for switchgear solutions. Electrical disconnect switches, fuses or circuit breakers. The electrical switchgear is a key part of any power system. It controls the flow of power, protects you against overloads, and

Keep your site operating smoothly with Aggreko's utility power systems. Rent transformers, loadbanks and generators. Submit an enquiry today. Turnkey energy solutions for wind farms, hydro, solar, nuclear and waste water plants. Working quickly to restore utility power systems with backup or emergency power during outages caused by weather.

Aggreko Solar Power was launched in October 2020, with the announcement of the immediate availability of the company's solar power rental offer. "The 1 MW PV solution is optimised for weak or off-grid applications and delivers clean energy innovation without long-term financial or technical commitment", the company said.

Learn how Aggreko's M90 80 kW UPS provides scalable, modular, and reliable power for critical applications. Protect your equipment with this high-density, network-grade power solution that ensures mission-critical availability. Ideal for mission-critical applications, this UPS system delivers clean, reliable power with flexible

Discover Aggreko rental battery & energy storage systems & solutions, including plug & play battery systems, suitable for both commercial & industrial use. That deliver the ultimate performance efficiency by enabling you to store and ???

Aggreko's Battery Energy Storage Systems represent a paradigm shift across the construction industry, and specifically, welding applications. By transcending the limitations of traditional power sources, we are charting a ???

Hire highly efficient combined heat and power systems. Cutting costs and emissions with CHP energy systems. Harness your waste heat and steam for greater efficiency through CHP systems. This clean, stable and reliable power supply will enable you to reduce your total cost of power, lower your (C)Aggreko 2024. Live chat. 03458 247 365

At Aggreko, we energise change ??? providing energy solutions for however long they're needed, helping businesses grow and communities thrive. We're sector specialists, bringing together our engineering capability and proprietary application know-how ???

Once installed, the costs of producing solar power are almost zero - and so are emissions. Our battery and energy storage systems gives you greater power quality and resilience and also delivers savings to your project, by improving the overall plant efficiency and thereby reducing fuel consumption and carbon emissions. Download our brochure

Aggreko has expanded its presence in Mozambique with a contract to supply interim power to the Moma Mineral Sands mine. The temporary power specialist will provide 10 MW to the Moma facility, which is located in the north east of Mozambique and which is owned and operated by Ireland's Kenmare Resources.

From small hires to huge projects, our mobile, modular equipment is designed to work together, and scale up and down as demand requires. And as sector specialists we have the knowledge and solutions to support you in achieving your unique ambitions.

Whether it is diesel, gas, hybrid or HFO, Aggreko can provide temporary power ranging from day hires to 20 year contracts to bridge the power gap for mine sites. From providing power for the camp, shovel walk or conveyor belt we can offer flexible rental agreements to suit any situation. Find the power, heating and cooling systems to keep

Aggreko Energy Transition Solutions (ETS), a division of Aggreko, has acquired Infiniti Energy, a US-based commercial and industrial solar company, from Upper Bay Infrastructure Partners. Upper Bay, a mid-market infrastructure private equity firm that transformed Infiniti Energy into an IPP platform and institutional ownership, has fully exited

Reducing fuel costs by 60 percent or more with power automation and power-on-demand systems for pump jacks, booster pumps, dewatering facilities and other applications. Operating more efficiently by capturing and purifying excess flare ???

Aggreko has a wide range of switchgear power systems available for dependable, high performance power distribution. Enquire today for switchgear solutions. offering protection, isolation and control. At Aggreko, we provide an exhaustive switchgear range to suit everything from the smallest projects to large-scale industrial control rooms.

And the risk of grid connection delays is high. Overstressed T& D assets, weather-related events, supply chain disruptions, local system upgrades and remote site access each contribute to ??? and compound ??? your risk of delay. Aggreko shares your goal of building a cleaner, more resilient renewable power grid.

Aggreko offers rental solutions covering power generation, dehumidifiers, cooling & heating, battery storage & industrial air compressors. From small rentals to large projects, our mobile, modular equipment is designed to work together, ???

We provide reliable, cost-effective rental power through various generators and electrical distribution equipment. From small, transitory power at a site level or base load-scale megawatt power for regional grids, we'll keep the power ???

Aggreko provides power solutions to industrial sectors in the Oman. Explore our range of industrial power generators, HVAC equipment & commercial energy storage systems. Mobile, modular power, temperature control and energy storage. Wherever, whenever you need it. Speak to one of our experts to see how we can help you.
