

Where is solar Fiji located?

Lot 41-42 Pilling Road, Nasinu, Suva. Solar Fiji, supply and install the highest quality solar power systems in the South Pacific. Based in Nasinu, Suva, we specialize in Off Grid and Grid Connect Solar Power Systems and are official distributors of world leading brands such as Victron Energy, Canadian Solar, Narada Batteries and QCells.

How will Fiji's New solar power project impact the world?

The \$A21 million project is expected to generate enough electricity to transition 14,000 Fijian households to solar energy and will dramatically reduce Fiji's reliance on imported fossil fuels. Currently, approximately 45% of Fiji's power needs are supplied through fossil fuels, 50% through hydropower, and the remaining 5% from biomass and wind.

Is solar Fiji a good company?

The technician (Pita) was professional when he came to install our solar system. The system is good. Products are good and quality. Installation team did a good job. I am happy with the solar system. Company is good and original. Customer service very good. Installation team did good job. I am happy with the solar system provided by Solar Fiji.

Will Fiji become home to the largest solar project in the Pacific?

The island nation of Fiji will become home to the largest solar project of its kind in the Pacific, a 15MW project that will significantly lower the country's reliance on costly imported fossil fuels.

Who is Agile Energy Group?

From solar power to carbon offsets, the Agile Energy Group is at the forefront of implementing long term sustainable energy solutions, accelerating the renewable energy transition for businesses across the nation.

Will a 15MW solar project benefit Fijians?

With 90% of Fijians connected to EFL's power grid requiring total generation capacity of around 267MW daily, even a comparatively small 15MW solar project delivers a noticeable benefit of around 5% of the country's power needs.
