

What is AGL solar?

Find out more about AGL solar, by continuing to read below. AGL Solar Savers Plan is available to residents of New South Wales, South-East Queensland, and South Australia. AGL Solar Savers offers the highest solar feed-in-tariff available through AGL, helping you earn more from your solar PV system.

Will AGL Energy Invest in New wind & solar?

The investment case for new wind and solar generation is "tricky" and AGL Energy will instead focus on hydro, gas and batteries, chief operating officer Markus Brokhof says.

How does AGL pay for solar?

AGL customers can pay for their solar upfront, through a finance plan, via their AGL electricity bill, or using the AGL Solar Smart Plan. Businesses that want solar with AGL but can't afford the upfront installation cost can sign up to the AGL Solar Smart Plan.

Is AGL acquiring firm power?

In a market announcement, energy generating and retailing major AGL confirmed it has entered into a binding agreement to acquire Sydney-based solar developer Terrain Solar and battery energy storage specialist Firm Power in a deal worth about \$250 million (USD 165.5 million).

Is AGL a good solar retailer?

If you already have solar panels and you just need a retailer that can offer a great deal on your feed-in tariff, then AGL is worth some serious consideration. AGL Solar Savers may offer some decent value for customers with large solar systems.

How can AGL help you get the most out of solar?

After you're all set up with solar, AGL can help you get the most out of your solar system through special solar deals and feed-in tariffs (FiT). Feed-in tariffs are a form of rebate whereby customers are compensated a few cents for every unused kilowatt-hour (kWh) of electricity exported to the energy grid.

Our vision is for this integrated energy hub to become a circular economy, where the waste of one industry becomes the input of another.
