

Can I use the Nomad solar panels with the Yeti 200?

You must use the Nomad solar panels with the Yeti 200 and not directly to charge devices. These panels are designed to work with the Goal Zero battery and that is the product you need to charge your devices off of while traveling.

Can the Nomad 50 charge a Goal Zero Sherpa 100AC?

Yes, the Nomad 50 can charge a Goal Zero Sherpa 100AC in 3-6 hours.

Can I charge my Yeti with the Nomad?

The Nomad solar panel is designed to charge the Yeti battery and should not be used to charge devices directly, as it does not contain a charge controller. Charging a phone directly with the Nomad will ruin the battery.

Built tough for mobile basecamps and off-grid adventures, the Goal Zero Nomad 50 gives you enough solar-collecting capability to keep your essential devices charged for long stretches on the road. Features . Pairs perfectly with a Goal Zero Sherpa Power Bank (such as the 100AC) or Yeti Portable Power Station (such as the Yeti 150, 400 Lead Acid
