

Does Alliant Energy offer a rebate?

Alliant Energy must supply the primary energy to the equipment for it to be rebate eligible. Some exceptions may apply. The rebate amount will not exceed 50% of the equipment purchase price. Equipment must be new, installed on the premises and must not be purchased for resale. Refurbished equipment is not eligible. Some exceptions may apply.

Does Alliant Energy restrict bulk purchases?

Alliant Energy may restrict bulk purchasing or repeated purchases within the same calendar year. Alliant Energy reserves the right to meter the specified equipment or process, at no cost to the customer, to determine the actual energy saved for up to 18 months after installation.

Does Alliant Energy make a warranty?

Alliant Energy makes no warranties, expressed or implied, with respect to any equipment purchased and/or installed including, but not limited to, any warranty of merchantability or fitness for a particular purpose. In no event shall Alliant Energy be liable for any incidental or consequential damages.

What is Alliant Energy?

Visit our Help Center. As we work to build the grid of the future, Alliant Energy is partnering with landowners in the agricultural and rural communities to build and maintain clean, affordable energy in and around agricultural land based on shared values and principles. Outdoor recreation is a big part of life in the Midwest, all year round.

When does Alliant Energy install energy-efficient equipment?

Installation of energy-efficient equipment must occur between Jan. 1, 2024 and Dec. 31, 2024. Alliant Energy reserves the right to contact customers who participate in the rebate programs for surveys to monitor and evaluate program performance. Submit rebate claim forms by Jan. 31, 2025.
