(Bloomberg) --Guinea plans to build the country's first solar power plants to increase its electricity production by 15% and cut its reliance on West African neighbors. The construction of two 35-megawatt power plants and a 30-megawatt plant are underway in the gold-rich regions of Kankan and Siguiri, the energy ministry said in statement Friday.

New open box. Completely brand new and unused as seen by the items in the photos. There is a very small amount of wear to the box that it comes in. (As seen in photo #5) Please Look Over all photos carefully before making your decision. Thank you for your consideration!
