NextEnergy Solar Fund makes a material difference in tackling climate change and increasing energy security in the countries in which its assets operate. The Fund has c. \$1.2 billion assets under management, with an investment objective to provide ordinary shareholders with an attractive income, principally in the form of regular and reliable dividends.

Aloha Solar Energy Fund 1 PK1 is ranked #47 out of 65 power plants in Hawaii in terms of total annual net electricity generation.. Aloha Solar Energy Fund 1 PK1 generated 1.6 GWh during the 3-month period between September 2023 to December 2023.

This business was born out of the desire to make the process of going solar easier and transparent for homeowners. Why should we be sticking with the old power model when sustainable solar energy is plentiful (see chart below). To check if your roof is a good candidate, we recommend looking here - brighter patches are better.

Public comments were sought regarding Aloha Solar Energy Fund II LLC proposal to lease and develop a 5 megawatt solar power utility installation to be built on approximately 44.28 acres of lands owned by the Hawaii Community Development Authority in Kalaeloa.

Say Aloha to sustainable energy from the sun. Solar is our most abundant energy source - the amount hitting the earth's surface in just 2 hours could meet our planet's annual energy needs. Installing solar is one of the most substantial investments you can make to address climate change. The Land of Lincoln is excellent for solar energy! Free
