

Who is alpha power systems?

Alpha Power Systems excels in the design and manufacturing of a diverse range of UPS. Our range includes high temperature UPS, modular UPS systems and single and three phase UPS available in tower, wall, or rack-mount models. Our vast UPS range means that we have a solution for all your domestic and industrial powering needs.

Why should you choose Alpha power systems?

Alpha power systems are custom engineered to backup and protect sensitive, mission-critical electronic equipment. With over 35 years of experience, Alpha is a trusted leader in providing a complete line of AC power solutions from indoor to rugged outdoor applications.

What is the difference between Alpha FXM & Alpha Micro ups?

The Alpha Micro UPS Series provides the same functionality as the Alpha FXM Series, for lower power applications in a single, easy to install cabinet. Optional add-on battery cabinets support applications where longer backup times are required. The system is available in either North American (120Vac/60Hz) or International (230Vac/50Hz) variants.

What is alpha power industrial DIN rail ups?

Alpha Power Industrial Din Rail UPS combines easy operating design, multi-function operation and supports power protection on industrial equipment. The TRIMOD series consists of modular UPS units which can be individually programmed with preferred input/output configuration. electronics equipment for various markets.

What are the different types of ups?

The system is available in either North American (120Vac/60Hz) or International (230Vac/50Hz) variants. 1. This applies to the UPS module only. Batteries may require a heater mat at lower temperatures. Output power derates after 50°C

What is a micro ups & a FXM?

The Alpha Micro Series provides constant, reliable backup power for Access Control, Security, Public Utility and Telecommunications applications in a compact all-in-one enclosure. The Alpha Micro UPS Series provides the same functionality as the Alpha FXM Series, for lower power applications in a single, easy to install cabinet.

Alpha Power Industrial Din Rail UPS combines easy operating design, multi-function operation and supports power protection on industrial equipment. The Smart Choice +61 (2) 9602 8331 | sales@alphapower ; admin@alphapower

UPS Systems | Alpha UPS | Alpha Micro 350 UPS  
The Alpha Micro 350 is a rugged compact all-in-one UPS solution installed worldwide to provide backup power. The Micro 350, by Alpha, an EnerSys company, is designed to perform in the most extreme and demanding environments where more traditional UPS can fail.

Whether UPS power supply, DC power supply, batteries and management systems or solar power solutions ??? Alpha and Outback Energy develops scalable, secure solutions for the most diverse areas and industries. The great thing is: they impress everybody with their intelligence, reliability and longevity and are low-maintenance.

At Alpha Power Systems our high temperature outdoor UPS range includes line-interactive, on-line and DC UPS suited to telecommunications applications and industry. The UPS range includes units of varying sizes and outputs to suit a number of high temperature and outdoor applications. Alpha Power Systems provides high temperature outdoor UPS systems with rich features ???

Alpha Technologies provides the Cable TV/Broadband, Industrial and Renewable Energy industries with the most reliable, technologically advanced and cost-effective powering solutions available. Alpha offers innovative powering solutions that are designed for the future; built to support expansion and provide unlimited opportunity. Widely used in cable television, ???

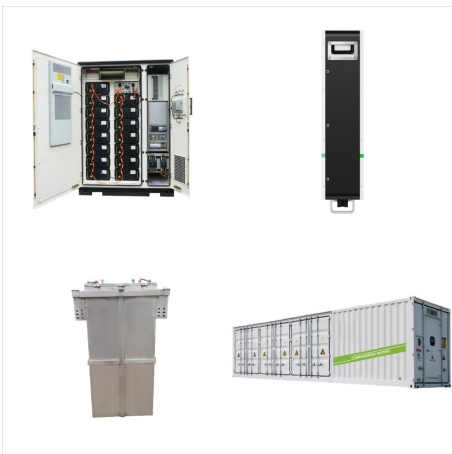

Choose a product from our entire product line. At Alpha Power Systems we offer a range of products to suit all your powering needs. Our product collection includes single and three phase products, indoor products, outdoor and high temperature powering products, AC and DC products as well as an array of others which can be used for a diverse range of both domestic and ???

FXM HP UPS is the next generation of rugged UPS power modules for the most demanding environments where clean backup power is needed. It offers a new user-friendly interface for improved operational performance and integrity. FXM HP UPS is designed to operate in extreme environments for reliability and maximum flexibility. While ensuring equipment remains ???

The Alpha Micro 100 is a reliable outdoor rated uninterruptible power supply (UPS) or backup power solution that supports loads up to 100W. The Micro 100, by Alpha, an EnerSys company, is protected by an outdoor rated (NEMA 3R) enclosure designed for ???

The new Micro 350 is Alpha's latest outdoor Uninterruptible Power Supply (UPS) System which integrates the FXM 350 UPS module in a NEMA 3R enclosure with an adaptor plate and optional batteries and distribution panel. The Alpha Micro 350 is part of the Alpha Micro Series. Products of the Micro Series are rugged compact all-in-one UPS

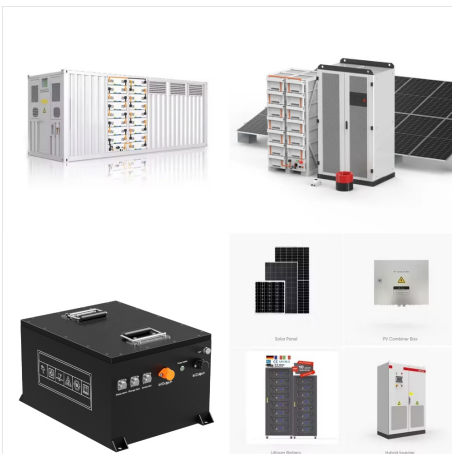

The Alpha Micro outdoor UPS system provides reliable back-up power for access control, security, public utility and telecommunications applications. The Alpha Micro has the same functions as the FXM with lower power applications. For extended back-up times, add-on battery cabinets are optional. The Alpha Micro comes with Automatic Voltage Regulation (AVR) providing stability ???

Alpha builds on its extensive experience in serving the Telecom, Data Center, Cable TV, Security and Traffic markets to deliver the broadest assortment of DC power solutions. Our solutions range from multi-bay systems for large switching offices to small shelf systems that can mount on a wall, or occupy a single rack space.

With an operational level of greater than 92% power efficiency the MODUPS uses less power than typical UPS systems. Modular rectifiers charge the batteries only when necessary and the charging capacity of the system rectifiers are proportional to battery capacity.

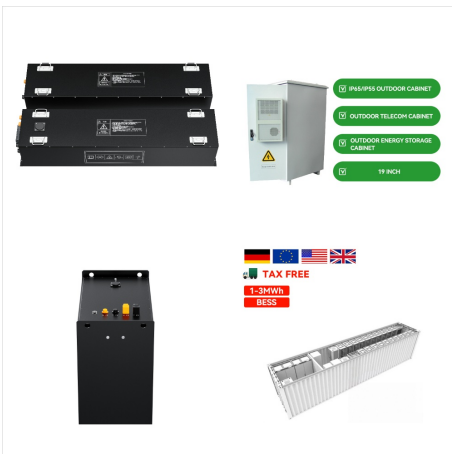

UPS Power Systems powerful implemented for your ideas. Made by Alpha and Outback Energy.

Uninterruptible power supply for Industry 4.0 ???  
Alpha and Outback Energy is always the number one contact when it comes to continuous, reliable and uncompromising power supply to ensure critical power-dependent processes and applications.

Systems can be integrated with a wide array of options including various rack solutions, custom DC distribution configurations, multiple voltage output designs and front access. Coupling advanced Cordex??? power technology with an enormous selection of system components, Alpha can easily provide optimal system solutions up to 8,000A.

Through years of experience in the market place, we have settled on products designed for the unique power problems in Africa. An On-Line UPS is the best system that money can buy. Under normal operation the online UPS is always running off the battery, using its inverter, while the line power runs the battery charger. For

Alpha Inverters, by Alpha Technologies, an EnerSys company, offer the latest technology in modular power systems to support small to mid-sized critical AC loads in a variety of standard and custom configurations. With a range of inverters for most applications, this family includes Alpha's Modular Power System HP2 that offers Telecom-grade AC power for critical loads.

Designed to easily accommodate a rugged 350 to 2000 W Alpha(R) FXM UPS power module. The Alpha(R) SE48-2216 Outdoor Enclosure is designed to protect rugged battery backup power system components from harsh outdoor elements in critical traffic and ITS applications. The rugged enclosure is made of 0.125" aluminum and designed to easily

The Alpha(R) Micro UPS Series provides the same functionality as the Alpha(R) class leading FXM Series, for lower power applications in a single, easy to install cabinet. Optional add-on battery cabinets support applications where longer backup times are required.

Alpha Technologies manufactures many different power products including Alpha UPS systems (standby and non-standby), TVSS, batteries, enclosures, and accessories. Alpha Industrial Power is a division of Alpha Technologies and supplies ???
