

What is Alteryx Freedom Power?

Alteryx Freedom Power(TM) fuel cells have logged more than 32 million hours of runtime, provided uninterrupted power during hurricanes, earthquakes, and severe storms where legacy systems have failed, and have replaced batteries and generators in more than 8.3 million watts of applications. For more information visit

Is Alteryx systems a new product innovation?

SANTA CLARA, California, Nov. 1, 2018 /PRNewswire/-- Based on its recent analysis of the North American market for backup power fuel cells, Frost & Sullivan recognizes Alteryx Systems (Alteryx) with the 2018 North American New Product Innovation Award for its Freedom Power fuel cell technology.

How does Alteryx's fuel cell technology work?

The technology allows Alteryx to manufacture one fuel cell every 30 seconds and the complete fuel cell engine in minutes. "Alteryx develops polymer electrolyte membrane (PEM) fuel cells, a grid-free and battery-free power system that can provide long-running, primary, or backup power for various industries.

With the largest deployed fleet of hydrogen fuel cells in telecom, Alteryx is the trusted backup power partner since 2001. Alteryx's Freedom Power System: Meets sustainability and climate change objectives; Produces power with no greenhouse gas (GHG) emissions; Eliminates performance and replacement issues with batteries and generators

See what employees say it's like to work at Altergy Systems. Salaries, reviews, and more - all posted by employees working at Altergy Systems. Skip to manufacture, sales, marketing and deployment of fuel cell based clean power systems for telecom and other critical power applications. Altergy's Freedom Power??? products provide freedom

ALTERGY FREEDOM POWER SYSTEM

Altergy Systems is a clean technology company that specializes in developing fuel cell systems for backup power, telecommunications, and other critical infrastructure. They are known for their patented, zero-emission hydrogen fuel cells, providing an alternative to ???

This system can stand alone or operate with an optional, integrated multi-volt, multi-stage, multi-battery type charger to extend the battery runtime and assure public safety. With the largest deployed fleet of hydrogen fuel cells in telecom, Altergy is the trusted backup power partner since 2001. Altergy's Freedom Power System for Railroads:

The FPS features Altergy's revolutionary Freedom Power Technology design and stainless steel construction, and delivers power conditioning and regulation capabilities that increase efficiency and keep electricity flowing to meet demand. Altergy's Nacelle is the most compact, lightweight, and durable fuel cell backup power system

ALTERGY FREEDOM POWER SYSTEM

California-based Altery Systems has partnered with broadband power solutions company Alpha Technologies in Washington state, such that Alpha Technologies will be the exclusive provider of Altery's fuel cell Freedom Power Platform (FPP), for deployment into Alpha's backup power infrastructure. The Freedom Power Platform is a patented

ALTERGY FREEDOM POWER SYSTEM

Wireless customers powered by Altergy's Freedom Power Systems were still able to make calls, contact emergency services, etc., during the prolonged outages. Hurricane Sandy knocked out power to an estimated 8.1 million people, with the New York area being the hardest hit. Several major telecom carriers reported towers and

Altergy Systems is a designer, manufacturer, and supplier of clean power systems. It offers fuel cell engines, methanol-reformer, fragile systems, enclosures, hydrogen gas generators, energy storage equipment, and other products. The company caters to military, public safety, telecommunications, utility industries, and more.

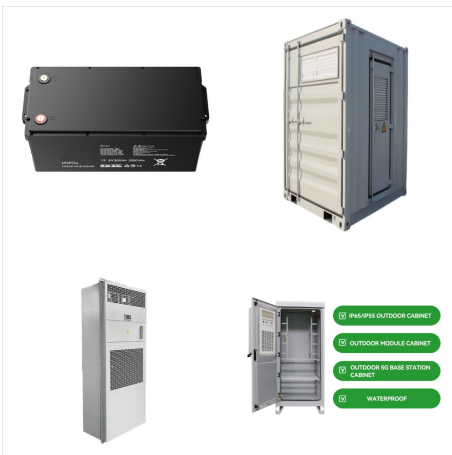

Altergy has developed a better solution, using its breakthrough hydrogen fuel cell power systems to deliver clean, sustainable, reliable power, cost effectively when the grid fails. The Freedom Power Traffic Signal Platform (TSP) is the only fully integrated fuel cell solution for traffic signals on the market today. Altergy's Freedom Power

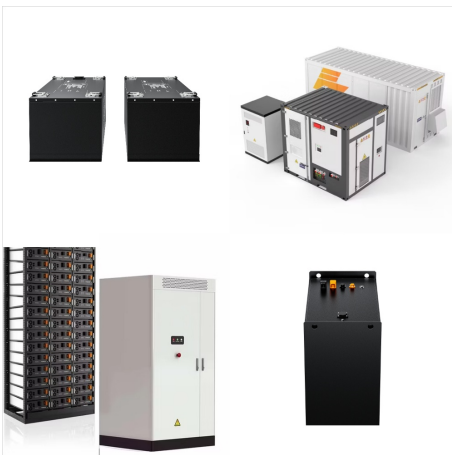

ALTERGY FREEDOM POWER SYSTEM

Alteryg's Freedom Power??? products provide freedom from the grid, freedom from foreign oil, freedom from traditional energy solutions, freedom from batteries and freedom from pollution and are "Changing the Way the World Gets Its Power." For more information about Alteryg Systems, visit . Alteryg, Alteryg Systems and

at approximately 1,350 customer sites globally and Alteryg Systems" Freedom Product achieved 5 million operational hours in telecommunications and other applications worldwide.¹¹. "Alteryg's Freedom Power Systems To Power Major Telecom Network Upgrade", Alteryg announced an order of over 1,000 systems for a wireless telecom carrier

Alteryg Systems(R) is the global leader in the design, manufacture, sales, marketing and deployment of fuel cell power systems. Alteryg's Freedom Power(TM) products are rugged, fully integrated, modular, scalable and highly-efficient fuel cell systems that generate power at the point-of-use making low cost, distributed power generation a reality

ALTERGY FREEDOM POWER SYSTEM

/PRNewswire/ -- Altery Systems, The energy source for now and the future, Altery's unique Freedom Power??? products provide freedom from batteries, generators, pollution, noise, and the grid

Altery Systems is offers reliable backup power solutions for telecom and delivers proven fuel cell technology. Altery Freedom Power??? fuel cells have logged more than 32 million hours of runtime, provided uninterrupted power during hurricanes, earthquakes, and severe storms where legacy systems have failed, and have replaced batteries and

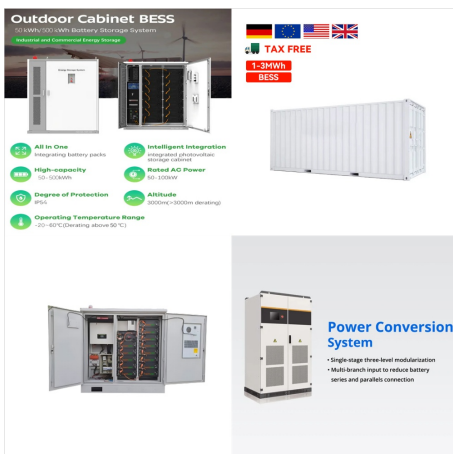

Altery's Freedom Power technology is designed to dramatically increase reliability and efficiency while decreasing cost, and features: Patented compliant contacts ??? Radically new method of making contact between bipolar plate and membrane electrode assembly ensures superior current collection, robustness, scalability, and ease of manufacture.
