Is alumo energy a good company to rent a solar system?

We recently had a rent to own solar system installed by Alumo Energy. What a pleasant experience!! From the the first call enquiring about their product, the sales person that came out to do the quote and the install team where so friendly and helpful!!! Our system perform great on the moment and is exactly what we needed. Thank you Alumo!!

What type of energy is primarily used in Syria?

In Syria, most energy is based on oil and gas. Some energy infrastructure was damaged by the Syrian civil war. In the 2000s, Syria's electric power system struggled to meet the growing demands presented by an increasingly energy-hungry society.

At Alumo Energy, we have become one of the most trusted names in the renewable energy industry over the last period, for great reasons too! Having helped more than 5,000 South Africans adopt solar power already, we have ample experience to draw from and have a long line of satisfied customers to show for it.

Rather than scrambling to meet the rising electricity costs of grid energy, you can rely on Alumo's solar solutions to save you money while reaping the many benefits of solar energy. A functional, reliable solar system, along with a battery backup can be an incredible investment that will benefit you in the long term.

At Alumo Energy, we make the switch seamless and affordable, helping your business save money, improve operations, and reduce its environmental impact with customized commercial solar systems.
