

What is the American Solar Energy Society?

The American Solar Energy Society (ASES) recognizes the harmful effects of racism, sexism, ageism, and classism including, but not limited to implicit and unconscious bias, on individuals and society. ASES stands steadfastly with individuals and communities around the world who have been victims of discrimination and injustice.

What is the ASES National Solar Tour?

Please contact info@ases.org for sponsorship and advertisement opportunities. The ASES National Solar Tour will be held on Oct. 4-6, 2024 and is the largest annual grassroots solar, renewable energy, and sustainable living event in the nation. Despite its name, the Tour also features a bevy of sustainable features.

When did the Solar Energy Society start?

In January 1964, the AFASE changed its name to the Solar Energy Society (SES). By then the SES already had several international branches (later called Sections); the first being Australia-New Zealand, formed in 1962, followed by Chile and then Italy. The SES had financial difficulties throughout the 60's.

When was the first AFASE Solar Conference held?

The first AFASE solar conference was held shortly thereafter, in Tucson in 1955, followed by the World Symposium on Applied Solar Energy the following week in Phoenix. The scientists from Bell Labs demonstrated their solar cells at the exhibition associated with the Phoenix Conference.
