If you need compact but a little more power than the smallest lithium battery charger in this review, the 4 amp Battery Tender is a fantastic option. It will still charge large batteries slowly in comparison to higher amperage chargers, but it's dependable with all the necessary safety features built-in.

Lithium (LiFePO4) Batteries Q ??? What is the difference between NMC and LiFePO4? A ???NMC Batteries offered by Amped Outdoors are a type of lithium that have a higher specific energy. This means they are 14.8V battery packs made specifically for fishing graphs such as Garmin, Humminbird and Lowrance. They are lighter, sma

AMPED LITHIUM BATTERY REVIEWS

To put this into perspective, my rig was running on deep-cycle lead-acid batteries that weighed a whopping 62 lbs each for just 100 amp hours per battery. In contrast, the Goldenmate lithium batteries offer 200 amp-hours per battery at a more back-friendly 57.32 lbs. That's twice the capacity for less than the same weight.
