

At Analytic Systems, we know that the reliability of our systems not only depend on the quality of the design and manufacture, but also in the way we support our products. All products are designed to meet or exceed many international testing standards.

power systems that prove reliable even in the harshest conditions. So, selecting suitable power supplies and power conversion electronics is of paramount importance. Today's multi-voltage electronics and their complex distributed architectures present many tough challenges, and Analytic Systems was established to develop more

Shop for Analytic Systems BCD315-48-12 at Inverter Supply for best prices online. Analytic Systems BCD315-48-12, Analytic Systems, BCD315-48-12, 20A 12V Out 40-60V In Iso DC/DC Battery Charger 2 Bank, Analytic DC Battery Chargers

# ANALYTIC SYSTEMS POWER SUPPLY

Analytic Systems is a Canadian manufacturer of power conversion products. All products are designed to meet international testing standards including CSA, UL, ABS and CE. The company provides power solutions to a number of diversified industries including: Military & Aerospace, Critical Infrastructure, Transportation & Steel Mill.

For "power conversion that works", Analytic Systems has what you need! Our product offering includes AC/DC power supplies (enclosed or rackmount chassis), as well as DC voltage converters, AC and DC battery chargers and AC/AC frequency converters. See our website for more information! 604-543-7378

Analytic Systems BCA1550-48, Analytic Systems, BCA1550-48, 28A 48V Out 85 - 264 VAC PFC In AC/DC Battery Charger 2 Bank, Analytic AC Battery Chargers . 888-606-2149. (BCA) and power supplies (PWS) are designed to supply a DC load or charge a battery at 12, 24, 32, 36, 48 or 72 (Rail) VDC. The 1550 family provides up to 1500 watts of

Analytic Systems VTC180-32-24, Analytic Systems, VTC180-32-24, 7.5A/9 24V Out 30-45V In Non-Iso DC/DC Converter, Analytic Converters . The VTC180 Series of voltage converters are variable duty cycle switching power supplies. They can be configured to run from a 24V, 32V, 48V or 72 VDC power systems to provide output voltages as shown below.

Shop for Analytic Systems IPSi1200-20-110 at Inverter Supply for best prices online. Analytic Systems IPSi1200-20-110, Analytic Systems, IPSi1200-20-110, 1200 Watt 20-45V In 110VAC Out Intelligent PureSine Inverter, Analytic Pure Sinewave DC/AC Inverters

Analytic Systems. Analytic Systems is an innovative Canadian manufacturer of power conversion products. We designed our first Switchmode DC-DC Voltage Converter in 1976 and today we design and build a complete range of products including Battery Chargers, Voltage Converters, Inverters, Power Supplies, Frequency Converters and MPPT Solar Charge Controllers.

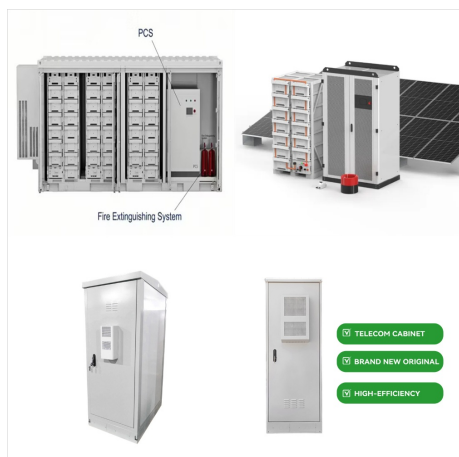

Analytic Systems BCA1550-24, Analytic Systems, BCA1550-24, 55A 24V Out 85 - 264 VAC PFC In AC/DC Battery Charger 2 Bank, Analytic AC Battery Chargers . 888-606-2149. (BCA) and power supplies (PWS) are designed to supply a DC load or charge a battery at 12, 24, 32, 36, 48 or 72 (Rail) VDC. The 1550 family provides up to 1500 watts of

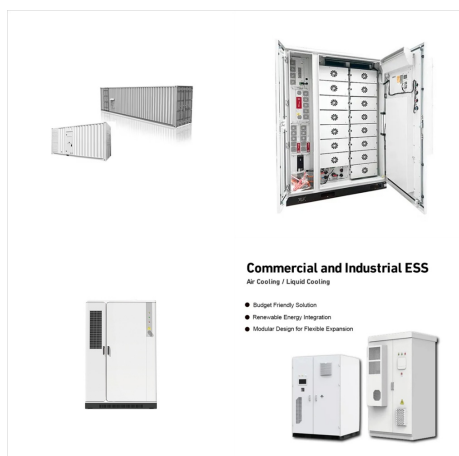

Analytic Systems BCA1050W-48, Analytic Systems, BCA1050W-48, 18A 48V Out 85 - 264 VAC PFC In AC/DC Battery Charger 2 Bank IP66, Analytic AC Battery Chargers (PFC) input stage allowing the power supply to run continuously from 85 264 VAC at 50 or 60 Hz with a Power Factor of 0.99 or better from 10-100% load. Additionally, heavy input and

Shop for Analytic Systems PWS610-110-48 at Inverter Supply for best prices online. Analytic Systems PWS610-110-48, Analytic Systems, PWS610-110-48, 10/12.5A 48V Out 110VAC In Power Supply CSA/UL, Analytic Power Supplies

Analytic Systems" power supplies use Switchmode technology with powerful IGBT switching transistors for reliability and efficiency with minimum size. Circuit innovations reduce output ripple to levels previously available only from bulky and inefficient linear power supplies. Reliability features include an input fuse, thermal shutdown, current
