

What's going on with APUs Energy & Diamond Offshore?

In a landmark deal signaling robust growth, Apus Energy, the Dubai-based energy conglomerate, has entered into a formidable drilling contract for Diamond Offshore's state-of-the-art Ocean Black Rhino drillship to tap into a promising exploration well off the coast of Guinea-Bissau.

Why is APUS energy acquiring Petronor?

Furthermore, Apus Energy's strategic acquisition of PetroNor's interests in the offshore Sinapa and Esperanza licenses, including the promising Atum and Anchova prospects estimated to hold 467 million barrels of oil, has been pivotal in this development.

What is energy in Romania?

Energy in Romania describes energy and electricity production, consumption and import in Romania. Romania has significant oil and gas reserves, substantial coal deposits and it has considerable installed hydroelectric power. However, Romania imports oil and gas from Russia and other countries.

Who produces electricity in Romania?

Electric power was provided by the Romanian Electric Power Corporation (CONEL). Energy sources used in electric power generation consisted primarily of nuclear, coal, oil, and liquefied natural gas (LNG). The country has two nuclear reactors, located at Cernavodă, generating about 18-20% of the country's electricity production.

What's going on with APUS energy's ocean Black Rhino drilling deal?

More by Dean Mikkelsen In a landmark deal signaling robust growth, Apus Energy, the Dubai-based energy conglomerate, has entered into a formidable drilling contract for Diamond Offshore's state-of-the-art Ocean Black Rhino drillship to tap into a promising exploration well off the coast of Guinea-Bissau.

What type of power does Romania have?

Electric power in Romania is dominated by government enterprises, although privately operated coal mines and oil refineries also existed. Accordingly, Romania placed an increasingly heavy emphasis on developing nuclear power generation. Electric power was provided by the Romanian Electric Power Corporation (CONEL).

In a landmark deal signaling robust growth, Apus Energy, the Dubai-based energy conglomerate, has entered into a formidable drilling contract for Diamond Offshore's state-of-the-art Ocean BlackRhino drillship to tap into ???

Romania's new draft energy strategy aims for 44 per cent of gross final energy consumption from low-carbon sources by 2035. The EBRD's Renewable Energy Programme is a strategic priority for the energy sector, helping countries to scale up renewable energy by developing supportive policy frameworks that, together with well-designed

As coal plants shut in Romania, some miners transition to green energy while others are reluctant
1 of 14 | Sebastian Tirintica sits backdropped by solar panels in the RenewAcad training center in Petrosani, ???

2 ? Renewable energy offered a mixed picture. Solar energy production rose sharply by 55.1% to 3.18 billion kWh, while wind energy dropped by 18.2% to 5.07 billion kWh. Hydropower generation declined significantly, falling by 21.3% to 12.53 billion kWh, and nuclear power output dipped by 4.3% to 8.9 billion kWh.

Today, Eney successfully completed the acquisition of the "Transeastern" portfolio, a multi-asset renewable portfolio located in Romania with a total installed capacity of 81 MW featuring two on-shore wind parks, two solar ???
