

How does the Arcadia Power Community Solar Program work?

Each customer purchases or rents a portion of the solar array sufficient to meet their monthly or annual electric demand. The Arcadia Power community solar program guarantees a reduced energy bill, requires no long-term commitment, and integrates with utility billing systems so you only pay a single bill per month.

Does Arcadia offer community solar?

The clearest benefit of Arcadia's community solar program for residential customers interested in solar is the ability to cancel at any time. You no longer need to sign a 20-year contract, risk a termination fee, or be obligated to transfer the commitment to the next tenant in a rented apartment.

Who is Arcadia solar?

As the national leader in community solar management, Arcadia's expertise empowers you to accelerate the solar movement with ease. Whether you're looking for savings or subscribers, we've got you covered. Renters and homeowners, connect to a local solar farm for no extra cost and get annual savings on your power bill.

Does Arcadia pay for solar panels?

Participating utilities commit to buy solar energy from Arcadia, which sells subscriptions to consumers and buys energy from solar farms. In some states consumers pay Arcadia, which then pays the utility on their behalf and also the farm. Others will see a community solar credit directly on their utility bill. Considering Solar Panels?

Why did Arcadia reach 2 GW of community solar capacity?

"We're thrilled to announce we've reached two gigawatts (2 GW) of community solar capacity, extending our position as the market leader," said Kiran Bhatraju, Arcadia's founder and CEO. "Hitting 2 GW is a testament to our unwavering commitment to providing accessible, affordable, clean energy to communities across the nation."
