

How many people can a lithium battery power Buenos Aires?

The plant will generate 15 megawatts per year, which means it will produce lithium batteries capable of powering 2500 households. The batteries are envisaged for use in rural areas. For example, there is already a Buenos Aires province-backed project to supply the Paulino-Berisso island, home to 70 families who are currently off the power grid.

Where will lithium batteries be made in Buenos Aires?

State company Y-TEC, the tech arm of YPF, will open the first lithium battery cell factory in September, in La Plata, the capital of Buenos Aires province. Another plant, five times bigger, will kick off in Santiago del Estero in 2024.

When will Argentina's first lithium plant start production?

Argentina's first National Plant for the Technological Development of Lithium Cells and Batteries will start production in September on the premises of the National University of La Plata (UNLP), Y-TEC (a subsidiary of the state-owned oil company YPF) head Roberto Salvarezza announced Thursday.

Does Y-TEC sell lithium in Argentina?

In the case of lithium, Y-TEC signed a contract with American company Livent, which extracts the mineral in Catamarca and, for the first time, sold part of its production in Argentina. According to Salvarezza, for industrialization to grow in scale, part of the production ought to be sold on the local market.

Where will lithium batteries be made?

The lithium batteries' cell manufacturing plant in Berisso, La Plata, will open in September, an event top government officials are expected to attend. The plant will generate 15 megawatts per year, which means it will produce lithium batteries capable of powering 2500 households. The batteries are envisaged for use in rural areas.

Will Y-TEC & YPF Litio be a leader in lithium industrialization?

Another plant, five times bigger, will kick off in Santiago del Estero in 2024. "We want to position ourselves as region leaders in lithium industrialization," said Roberto Salvarezza, president of Y-TEC and YPF Litio. The

companies are carrying out three projects to develop local providers, and they expect 50% of each battery to be locally made.

This 48V lithium battery boasts a 300Ah capacity and a continuous discharge rate of 15kW. That translates to reliable power for extended periods, making it ideal for solar energy storage, off-grid living, and backup power systems. Leveraging advanced lithium-ion phosphate (LiFePO₄) technology, the Felicity FLA48300 promises superior safety
