

Heating alone accounts for 20% of energy consumption and 30% of Armenia's energy savings potential. Solutions: + Construction or repair of district, CHP, or central heating systems + Grants and preferential loans for insulation, retrofits, and heating upgrades in low-income settings + Adoption of efficient technologies like geothermal heat

"OCTO" LLC offers modern and innovative technological solutions for more efficient, safe and profitable use of energy in Armenia. Executive. Karen Adamyan, Founder and Executive Director. Contact information. (OCTO TECHNOLOGIES) OKTO TEXNOLOGI, TEKNOLOGI "OCTO" ("OCTO TECHNOLOGIES")

The Foundation for Armenian Science and Technology (FAST), in collaboration with the first Armenian solar panels manufacturing company - Solarnn, implemented a new grant program on developing Armenia's Energy Independence Roadmap. This raises the need to generate solutions for reducing reliance on energy imports. The dependence on

Lithuanian solar energy company will supply Armenian education, art, medical institutions with clean energy The Lithuanian solar energy company Solet and the OHM Energy will install a solar power plant in Armenia, which will provide electricity to 10 public institutions, including schools, educational, medical and other institutions.

We specialize in providing renewable energy solutions such as solar panel installations and wind turbines. Our solutions are customized to meet your energy needs and help you reduce your carbon footprint.

AS-Tech Company (AR-IST LTD) is a System Integrator and Value Added Solutions Provider, holding a leading position in the Information Technology market of Armenia. Key expertise areas of company are Security and Fire Protection Systems, Telecommunication, Networking, Energetics, Medical Equipment, Cooling and Heating Technologies.

Development "Promoting Sustainable Energy Solutions and Clean Technologies in the CIS Countries" from 22 to 24 November 2017 in Vienna, Austria. The Conference brought together more than 100 organizations presented in this paper cover Armenia, Belarus, Moldova, Russia, Ukraine and Kyrgyzstan. These cases may serve as examples that show

Having clean fuels and technologies for cooking ??? meaning non-solid fuels such as natural gas, ethanol or even electric technologies ??? makes these processes more efficient, saving both time and energy. Armenia: Energy intensity: how ???

The American University of Armenia (AUA), the National Polytechnic University of Armenia (NPUA), and the Scientific Research Institute on Energy (SRIE) are pleased to announce a Call for Applications for early-stage researchers affiliated with these institutions to participate in short-term scientific missions (i.e., up to two weeks) to Italy or Ireland to one of the following ???

Thanks to new technologies invested in the plant, the station's efficiency reached 70%, reducing fuel consumption by half. "Hrazdan Energy Company" CJSC. Established in 1966. Capacity- 300 MW (Heat output capacity 560 Gcal/h) "Hrazdan TPP" is an example of a productive, entrepreneurial cooperative between Armenia and Russia.

Having clean fuels and technologies for cooking ??? meaning non-solid fuels such as natural gas, ethanol or even electric technologies ??? makes these processes more efficient, saving both time and energy. Armenia: Energy intensity: how much energy does it use per unit of GDP?

Welcome to Energy Solutions Technologies. Energy Solutions Technologies (Enerstech) is a company based in the United Arab Emirates and are operating throughout the region. We are involved in the development of the onshore and offshore industry in the Gulf Region having capability and experiences in supplying in the Oil and Gas industry

On 31 July, the "Small-scale energy-efficiency solutions for the rural people in the Republic of Armenia" initiative held a closing event in Yerevan to present its results. The initiative was co-funded by the European Union and the German Federal Ministry for Economic Cooperation and Development (BMZ) as part of the "EU4Energy efficiency and renewable ???

186 Buses Headed to Armenia! Zhongtong Solutions Power New Era of Global "Green Transportation" Date? 1/4 ?2024-11-01 09:47 As global reputation and new energy core technologies rapidly develop, Chinese brands are accelerating their international expansion. Zhongtong Products Build Green Transportation in Armenia. Armenia, located at the

Armenia has a great potential for solar energy???the average annual value of the flow of solar energy on a 1m2 horizontal surface is 1,720 kWh/m2, and a quarter of the territory of the country is

Eco Step Solar Energy Solutions, Nor Nork 4th Micro-District, Gai Ave., 51 Building, 0076, Yerevan, Armenia. What we do at Eco Step Solar Energy Solutions Eco Step Armenia is a renewable energy company in Armenia. The mission of our company is to provide innovative and ecologically friendly technologies available for everyone. Being the

Energy System diversification, regional integration, and energy efficiency are the pillars of energy security for Armenia. Read more. Agency Projects <<Agrivoltaic as an Innovative Approach to Agriculture>> project 29 Feb 2024.

In 2022, the plant's output increased from 90 MW to 350 MW. 70% of solar panels produced in Armenia are exported to the USA and many European countries and 30% are consumed in Armenia. Premium panels produced by LA SOLAR are certified according to the international standards ISO9001:2015, ISO45001:2016, ISO14001:2015, and the products have CE

Eco Step Armenia is a renewable energy company in Armenia. The mission of our company is to provide innovative and ecologically friendly technologies available for everyone. Being the official representative of various European solar brands, Eco Step Armenia corresponds to international quality standards. Quality and durability are our policy.

Solarm presents its solutions in the field of solar energy, which will help save electricity and reduce electricity consumption. Poly and Mono PERC type, and glass-to-glass technology PV panels. Smart House . The smart home system allows you to get information about a home- temperature, humidity, status of electrical parts and managing them

Optimum Energy Armenia creates value for clients by successfully harnessing the expertise of highly skilled multi-disciplinary engineering team in design, delivery and operation of high quality sustainable energy solutions locally and internationally. Technical advisory services in the field of various renewable energy technologies.
