

The Astronergy CHSM72N(DG)/F-BH bifacial solar panel series is designed to deliver high performance and reliability. With a power output range of 560W to 580W, this module is an ideal choice for both commercial and utility-scale projects. Featuring advanced TOPCon and half-cell technology, it ensures excellent energy generation and long-term efficiency.

We have been in the solar installation business for 15 years. In that time we have only had manufacturer induced solar panel failure once. When 40% of the modules in a given array fail, most manufacturers consider it a five alarm fire; and immediately move to support the customer; not Astronergy: Astronergy had us send two solar panels back to China for ???

The Astronergy panels supplied for this Claresholm Solar project is ASTRO Series reinforced bifacial module with double glass (front side 2.5mm tempered and rear side 2.5mm semi-tempered). Enhanced with excellent encapsulation structure and strengthened frame, this type is specially designed for severe hail (45mm, 30.7m/s), and unfriendly

ASTRONERGY SOLAR PANELS REVIEW UGANDA

Monocrystalline: The typical black panel used in most current domestic installations. Monocrystalline PERC: A higher efficiency technology found in some panels. See our buying guide for more information.. Bifacial: Has solar cells on both faces, i.e. front and back. These can be mounted as usual, with the front facing the sky and the back face picking up extra reflected ???
