

Where are Atlantis solar parts made?

Korean and China parts in Atlantis Solar USA manufacturing facilities in the United States and now Asia. Our presence being known as Atlantis Solar brand name in over 80 countries today and growing.

Why should you choose Atlantis solar &#174;?

Our solar generators will provide a solution for every person worldwide ranging from our smaller upgradable size solar generator - UPS units to our largest upgradeable generators. Atlantis Solar &#174; is making it more affordable to provide electricity to any remote location in the world, no matter where you live.

Is Atlantis solar a trademark?

Atlantis Solar Trade Names, Marks, and Copyrights are categorized under environmentally friendly energy products under Federal Law. For those utilizing our Atlantis Solar name with out contracts, are committing Infringement and Fraud under Federal and State Laws, and will be dealt with appropriately.

Who is Atlantis Energy?

Atlantis Energy is a firm that provided custom-manufactured PV panels and the system design and integrationfor this project.

Will a 7 MW solar plant be built in Atlantis?

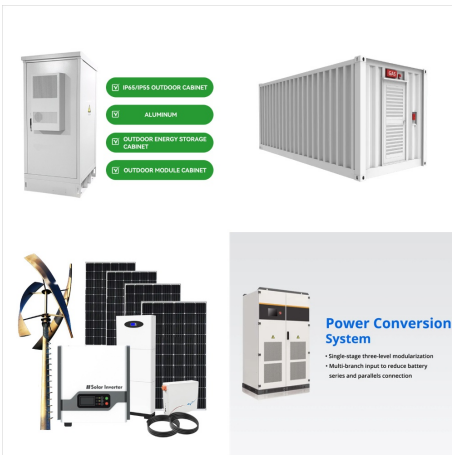

The city has issued the tender for the engineering, procurement and construction of a 7 MW solar photovoltaic (PV) facility in Atlantis. The facility will be connected directly to the city's electrical network. The city believes that the construction of similar plants across the metro could follow at a later stage.

Will the Atlantis solar plant improve the city's financial sustainability?

It is expected that the Atlantis solar plant will enhance the City's financial sustainabilityas the cost of generating the electricity would be lower than the bulk procurement from Eskom. Reducing the dependency on Eskom also means the City can develop and explore more climate-friendly power sources than Eskom's coal-fired power stations.

Atlantis Solar will excel in manufacturing demand worldwide with our state of the art technology, energy efficient top quality products, and export expectations in 2015; making us a global leader, with our state of the art environmentally intelligent green technology.

Atlantis Solar is "third generation" providing products developed from the latest state of the art technology in solar street lights. Our technology benefits every country worldwide that shares the same common needs in saving money and going green.

Atlantis Solar USA / Dominicana has been approved and certified to receive all benefits passed by Enrique Ramirez, president of the CNE for implementation of projects to produce clean energy. The 57-07 Act provides tax exemption on imported energy efficient equipment.

Atlantis Solar will educate you on better ways to reduce Environmental Global Warming, Carbon Footprint Elimination. Products & Educational Services: atmospheric water generators, awg, water generator, air to water, solar atmospheric water generator, pure water, government water, world water, thermal solar air conditioner, solar air conditioner

Ranging from our small affordable generators giving you lights, security and cooler inside air to your home, business or other applications, to our large generators that will operate several large energy needs without having to worry about energy supply or large monthly energy bills.

Introduction of Atlantis Solar Air Conditioners:  
Atlantis Solar Air-Conditioner absorbs solar energy to heat the inside medium by using a vacuum solar collector. The refrigerant from the compressor goes through the copper coil inside the collector and undertake a heat exchange.
