The energy storage system will be installed next to the 244-MWp Sol del Desierto solar farm that Atlas commissioned in Maria Elena commune in March 2022 but will be run as a standalone unit. Atlas Renewable Energy is funded and supported by Global Infrastructure Partners (GIP). (USD 1.0 = EUR 0.907) Choose your newsletter by Renewables Now.

Interview: Camilo Serrano. In what sense did the reforms enacted earlier in the decade help to boost the energy sector? CAMILO SERRANO: Although far from complete, and with considerable regulatory issues remaining, the energy reform opened the door to competition and attracted the attention of international energy companies that see Mexico as a new market with great potential.
