Whenever more power or battery capacity is needed

# AUSTRIA PAYGO SOLAR HOME SYSTEM

PAYGO is a pioneering, game-changing credit system that removes the initial financial barrier to solar energy access by allowing consumers to make a series of modest payments to purchase time units for using solar electricity instead of paying upfront for the entire solar lighting system. PAYGO is emerging as a solution that addresses both end

Not all studies listed in Table 1 leveraged their data resources to investigate payment behavioural patterns. In (Barry & Creti, 2020), the authors assess the fitness of the PAYGo model to reach "last mile" users in Benin; their findings revealed that most users were in urban grid-electrified areas instead (Kennedy et al., 2019), the authors leverage a large set ???
