

Who is KPV solar?

KPV Solar is a leading Austrian Solar company designing and constructing utility size Photovoltaic (PV) and Solar Thermal (ST) power plants. KPV Solar plans and builds big size renewable power plants for international investors in Austria, Italy, ... KPV plans and develops large Photovoltaic and Solar Thermal power plant projects for investors.

Who makes Energetica photovoltaic modules?

Energetica: High-performance photovoltaics. Made in Austria Energetica Photovoltaic Industries develops, tests and produces high-performance photovoltaic modules in Austria that are among the most technically advanced products in the industry worldwide.

What is a large-scale photovoltaic system?

Large-scale photovoltaic systems with low load capacity for all types of roofs - industrial and commercial types of roofs. DAS Energy - Photovoltaic modules - developed and produced in Austria. Solar power - anywhere.

Where are photovoltaic modules made?

Our expertise lies in the field of green technology, with a clear focus on the development and manufacturing of lightweight and flexible photovoltaic modules. At our production center in Wiener Neustadt, we utilize state-of-the-art fiberglass materials from the aerospace industry combined with highly efficient monocrystalline silicon cells.

Who is Energetica photovoltaic industries?

Made in Austria Energetica Photovoltaic Industries develops, tests and produces high-performance photovoltaic modules in Austria that are among the most technically advanced products in the industry worldwide. Our premium products are characterized by the highest performance, long service life and technological edge.

Are flexible solar modules suitable for commercial roofs?

Our flexible solar modules are particularly suitable for roofs with limited load-bearing capacity, as well as for foil and bitumen roofs. The DAS Kraftwerk team specializes in designing and installing photovoltaic systems
