

Are flexible solar modules suitable for commercial roofs?

Our flexible solar modules are particularly suitable for roofs with limited load-bearing capacity, as well as for foil and bitumen roofs. The DAS Kraftwerk team specializes in designing and installing photovoltaic systems for commercial rooftops.

Where can I find Das energy PV modules?

All currently available DAS Energy PV modules can be found in the DAS Kraftwerk webshop. Not every roof is dependent on light photovoltaic modules - DAS Energy also offers conventional glass modules for photovoltaic projects in every size and performance class. 12x2M project module - specially designed for standing seam rooftops

Where are photovoltaic modules made?

Our expertise lies in the field of green technology, with a clear focus on the development and manufacturing of lightweight and flexible photovoltaic modules. At our production center in Wiener Neustadt, we utilize state-of-the-art fiberglass materials from the aerospace industry combined with highly efficient monocrystalline silicon cells.

What is future-oriented solar solutions?

Future-orientated solar solutions are at the heart of our corporate philosophy. We draw on over 25 years of experience and a team of highly-qualified employees offering customer-tailored solutions. With the know-how and success of having realized over 300 solar systems worldwide constantly pursuing improvement and innovation.
