AZ RENEWABLE ENERGY CEO SPEAKS

Two Arizona industry CEOs look at how their businesses, and so many others across the state, have seen a positive ripple effect from the federal government investment in the renewable energy sector.

It will provide Arizona Public Service (APS) customers with energy, support increased power demand, and will also store energy from solar power plants on its grid to use when it is needed, particularly in the summertime when extreme heat and electricity demand is high in Arizona. In May 2023, Strata forged a 20-year tolling agreement with APS.
