

Does Bahama have a solar power project?

The Bahamian government owns and manages property rooftops, parking lots and green spaces, on which solar power projects could be developed. Several projects that capitalize on that solar power potential are underway, Jones Bahamas points out.

Is solar a good option in the Bahamas?

On a kilowatt-hour (kWh) by kilowatt-hour basis, solar's your best, but you need to add battery energy storage capacity in order to reach higher levels of penetration," he noted. "Nassau's [the Bahamas' largest city] is a pretty big grid, and it can take a fair bit of solar without storage," Burgess continued.

Why is the global PV build forecast up 1% quarter-on-quarter?

The global PV build forecast is up 1% quarter-on-quarter, largely due to developments in India and Pakistan, with installations slower than previously expected in Japan and South Africa. Most of the established solar markets continue to build steadily. Polysilicon prices have fallen to \$4.7/kg.

Will BPL & shell build a new power plant in New Providence?

News broke this past November that BPL and Shell signed a Memorandum of Understanding (MoU) that entails Shell developing a 220-250-MW natural gas-fired power plant to serve the main island of New Providence that's tentatively slated for completion in the early 2020s, for example.
