

NASSAU, The Bahamas -- Prime Minister and Minister of Finance the Hon. Philip Davis said the country's goal of having 30 per cent renewable power generation by the year 2030, embodies the Government's commitment to a sustainable future. "Therefore, the specification for the solar array (a collection of solar panels wired together to

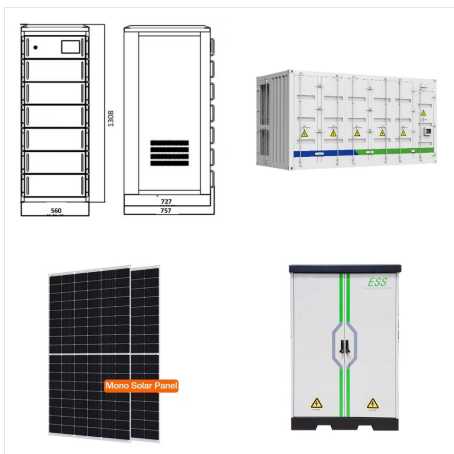

Experience the inauguration of the Fairfield Solar Plant, a pioneering venture in renewable energy in The Bahamas. Financed by IDB Invest under a power purchase agreement, this project is set to reduce carbon emissions significantly and contribute to United Nations Sustainable Development Goals.

We specialize in the following solar products: hot water, pool pumps, pool heating and photovoltaic. Bahamas Electricity Corporation (BEC) is the main power utility in the Bahamas. It is a Government owned company and services the majority of inhabited islands within the Bahamas.

The Grand Bahama Port Authority, Limited (GBPA), along with the Grand Bahama Power Company (GBPC), Lucayas Solar Power LTD.(LSP) and the Inter-American Development Bank, held the official contract signing ???

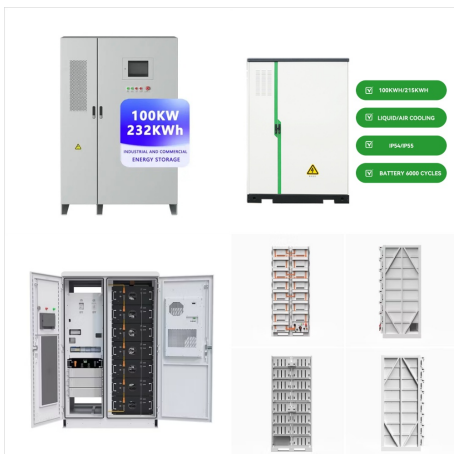

In 2019, Grand Bahama experienced a devastating storm resulting in sea surge up to 12-feet on the northern side of the island, where the Fairfield plant is located. An article in the online newsletter Renewables Now ???

"What the solar plant will do is allow us to spend less in fuel, but we do have to pay Lucayas Solar for their energy. So, you will see that stability as soon as the plant is switched on in a few months," he said. "As we know, The Bahamas has a bold green mandate to move towards 30 percent renewable energy generation by 2030," St

The Government's National Energy Policy (NEP) is on track to expand its solar energy capacity to 30% of total energy production by 2033. This goal is supported by the Inter-American Development Bank (IDB) and the Bahamas ???

A typical solar panel installation takes 2-4 days after the solar panels and equipment arrive. Solar panel installation will usually involve 2-3 Bahamas installers working together to complete the job. For some insight into the specifics of the installation process and solar panel system components, please visit our DIY Solar Network to view a

We've gone from running our diesel generator plant 24hrs/day, 365 days a year to only 8hrs/day. Yielding an actual fuel savings of 66% thus far, whilst we're in our peak???season. The system was installed by Bahamas Energy and Solar Supplies. We decided to use the southern side of the roof in the first phase which was completed in February
