MONSTER EXHAUST SYSTEM. The factory RAM exhaust uses several different sizes of pipe that are MIG welded together. This mismatch of pipe sizing and abrupt bends adds resistance to the exhaust system comparison, the Banks 5in Monster-Exhaust system is mandrel bent with a smooth constant inner diameter. Exhaust gas scavenging is maintained

Buy Banks 51313 Monster Exhaust System:  
Cat-Back Systems - Amazon FREE DELIVERY possible on eligible purchases This exhaust system had better reviews and contained better quality materials than almost any other exhaust system I looked at. I built the 4.0 for my 97 wrangler and installed it last month with an existing dynamax exhaust

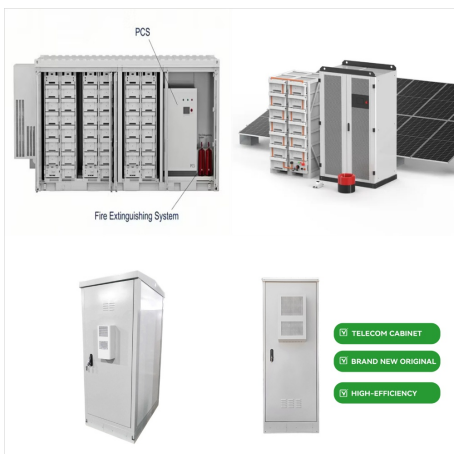

With a full 2.5in mandrel bent design, the Monster-Exhaust removes the under body resonator and restrictive power robbing rear OEM muffler to improve flow. Exhaust gas velocity is maintained all the way through the high-flow Monster-Muffler rear section and rear end ground clearance is improved for those tricky off road trails or rock climbing
