How many solar PV community solar gardens are there in Barbados?

Blue Circle Energy has over 40 solar PV Community Solar Gardens under development in Barbados, ranging in size from 250kW to 5MW. The project sites are distributed throughout the island, are located in each of Barbados' 11 parishes, and are sited and scaled to integrate with the community's natural and agricultural heritage.

Should you buy a solar PV system in Barbados?

One of the biggest, if not the biggest hurdle to further solar PV penetration in Barbados is the upfront cost of a system. When you think about the fact that the cost is essentially the prepayment of 25-30 years worth of electricity it makes sense that the price is "high". If you could purchase a ... Continue reading ->

In 2016 Barbados welcomed its first utility scale solar farm at the north of the island in Trents, St. Lucy. On June 11 th, 2016 it was first connected to the grid and after a month of commissioning and testing, it officially began commercial operation in August 2016.

CloudSolar is structured as a community of solar farm owners who have invested in the development of renewable energy projects across roofs and land in Barbados. Our capacity and pipeline is unmatched in Barbados & the Eastern Caribbean.

Blue Circle Energy is a Barbados-based renewable energy developer that empowers communities to benefit from their own renewable energy future. We develop solar PV and battery energy storage systems while providing for local engagement and ownership.

Unlock the potential of solar energy with Volt Plus Ltd. Find innovative solar solutions for your home or business in Barbados and the Caribbean. Slash electricity bills, earn passive income, and embrace a sustainable future.

Getting involved in the funding of the global solar power transition has never been easier. I started with micro solar projects in Africa through SunFunder before moving onto community solar projects in Ontario, Canada via SolarShare.

See what other happy and satisfied solar energy clients in Barbados have to say about our energy saving solutions. Our entire home is powered by the off grid system and everything works well. When we had the bad weather recently, we had no problems.
